Drunk Driver Goes to Jail

Sheppard of Hood River Is Sentenced in Justice Court, Jefferson

George Howard Sheppard, 23, of Hood River, pleaded guilty in Jefferson justice court yesterday to a drunken driving charge and was committed to the county jail when he failed to pay a \$100 fine. Payment of the fine would have gained him suspension of an additional sentence of 90 days in jail.

State police arrested Sheppard late Friday afternoon after his light roadster had struck a bridge abutment on the Pacific highway at Miller's creek and overturned, throwing him and a companion out of the machine. Neither was injured.

Salem police broadcast an alarm for Sheppard's arrest after an automobile answering the description of his roadster had been seen speeding south on Commercial street endangering the life of a woman pedestrian.

177 Lose Drivers' Licenses, October

A total of 177 Oregon drivers were deprived of their operators' licenses by revocation or suspension in October, Secretary of State Snell reported Saturday. This established a new high monthly record.

"These revocations and suspensions occur in many cases where the driver can ill afford to lose his license," Snell said. "If more drivers realized the seriousness of such offenses as reckless or drunken driving they would be less prone to take a chance on getting away with it."

The previous high month was August of this year when 156 licenses were suspended or revoked.

Multnomah and Klamath counties again headed the list of revocations and suspensions with 34 and 14 respectively.

Russia Stages Biggest Election

Soviet Russia goes to the polls on Dec. 12 to elect 1,000-odd deputies to the Supreme Soviet congress and 2,000,000 deputies to local Soviet councils. More than 100,000,000 are expected to vote. First to announce their candidacy were Joseph Stalin, dictator and chief commissar, and Nikolai Yezhov, head of the Russian political police. The Soviet election differs radically from most elsewhere in that there is only one party represented on the ticket, voters' choice being restricted to candidates, all of whom are pledged to the same credo. However, the "privilege" of voting a secret ballot strikes the Russian as rather satisfying and a most democratic step. Discussion groups review the qualifications of various candidates and the whole business is carried off in very serious manner.

Feet Given Blame For Various Ills

"Many serious conditions in the body are caused by our present-day living, our unnatural posture and the resulting breaking down of our feet, which are the shock absorbers of the body and nervous system," says Dr. W. F. Holloway, a well-known specialist in manipulative foot correction, who will be with Dr. Sapran this Monday and Tuesday.

"If you want to see some of the ill effects of the abuse of the feet," continues Dr. Holloway, "just stand on the corner of any of your main streets and read the expressions on the faces of the people who pass by. You can see expressions of pain, or pinched faces from chronic irritation to the nerves, and you can predict accurately many physical ills from observing the stride, posture and facial expressions of those who walk by you."

"Then if you would see the ill effects magnified, just go into our present-day Chinatown in San Francisco, and see the facial expressions of the Chinese women, their contours and body posture, and see them hobble on feet which have been deformed by binding—which is merely an extreme form of similar punishments now in vogue upon many in our own country today!"
