gress and Governor Martin today that the labor situation had stopped a county timber salvage program on 210,000 acres of burned over land which had provided an income to the county and state of \$30,000 per day.

Payments from timber owners on the county's \$500,000 in delinquent taxes also has stopped, the telegram said, and 2000 men have lost employment in the past few weeks.

"We insist on a sane and immediate adjustment of this intolerable situation," it concluded. Approximately 12 billion feet of timber was being salvaged from the burn at the rate of two mil-

lion feet a day. Urges Restraining Order

PORTLAND, Ore., Nov. 24-(AP) -Albert B. Ridgeway, special master in chancery, upheld today the contention of the Plylock corporation that affiliation of its employes with the CIO was a violation of a closed shop contract with the AFL.

He recommended that Federal Judge James Alger Fee grant the company a temporary order re-straining picketing or other interference by the CIO as being in violation of the Sherman antitrust act.

He held that the Norris-La-Guardia act did not apply inasmuch as employes could not create a labor dispute within the meaning of the act through violation of their own contract.

The plant was closed when employes accept ed a CIO charter, contending it was bound by contract to employ only members of the AFL. It later opened with a partial crew of AFL workers, and day. was picketed by the CIO lumber union

Judge Fee signed today a show cause order, requested by the Portland Waterfront Employers association and 40 shipping lines which seek to restrain CIO longshore and lumber unions from interfering with the loading of AFL lumber cargo.

The United States marshal's office started serving 40 subpoeon CIO officials.

Harold Crowley and John Oley

Sensational escape of three O'Connell abductors came to an end for two of them when a house painter, Ivan Whitford, of Syracuse, N. Y., trapped them with a clever ruse. Whitford induced the three to come to his mother's lodging house, and then called police. Harold Crowley and John Oley.

The senate listened today to arguments by Senator Pope (D-Ida) guments by Senator Pope (D-Ida) that the senate bill is constitutional.

Minority Leader McNary (R Ore) and Senator Copeland (D-NY) suggested that the bill be one representative each from the amended to prevent wheat, corn and cotton farmers from diverting acreage to crops for dairy production.

WASHINGTON, Nov. 24 -(AP)-The house agriculture committee's general farm bill included today provisions for compulsory control, through marketing quotas, for

corn and wheat. Similar in this respect to the senate committee bill, it also provided for soil conservation payments to participating farmers and for government loans on corn and wheat sealed in storage.

The house bill made no provision for "parity" payments proposed in the senate bill.

Where the senate measure provided fines of 50 per cent of parity prices for marketings in excess of quotas, the house bill provided the national association, will be taxes of 15 cents a bushel for exkept in Oregon for work of tuber- cessive marketings of the two grains.

As they affected the corn-wheat farmers in general, the house provisions included: **Offer Farmers**
