Bake Cakes in Containers to Give Away

It's high time we were including fruit cake among the recipes for Christmas, so it will have time to season for a while in a tight tin with an apple or an orange

to give moisture. One of the new ideas in making fruit cakes is to cook them in glass baking dishes to make a really lovely gift for a whole family. The makers of glass ovenware recommend that fruit cakes or plum puddings be baked with the top on the dish, claiming that the fruits and nuts keep their

color better without drying out. A favorite recipe for rich fruit cake uses expensive ingredients but makes a worthwhile gift. It makes about eight pounds of

> DARK FRUIT CAKE pound shortening

1 dozen eggs 2 cups sugar

1 pound nuts pound candied cherries teaspoons cinnamon

tablespoons lemon juice pounds seeded raisins pound white raisins 4 cups flour 1 teaspoon salt

1/4 cup grape or other fruit juice Slice candied pineapple 1 pound candied peel 1/4 teaspoon each nutmeg, all-

spice and cloves

1 pound currants Beat shortening with sugar till creamed, add lemon juice, cut fruit and add a cup of the flour to this and nuts, mix with fingers to coat all fruit. Sift remaining flour with spices, add alternately with whole eggs to butter mixture. Beat 2 minutes after each addition, add fruits slowly with grape juice, beat until well covered with dough. Bake in 3-loaf tins, begin in cold oven, bringing slowly to 275 degrees and baking for 21/2 to 3 hours. Pans should be lined with paper on bottom but not greased on sides. Put pan of water in

oven for first hour. To make this a light fruit cake, use only light colored fruits, substituting for the same amount of the dark ones. Use white raisins in place of the dark, other fruits to substitute for the currants and use light fruit juice for the grape. Bake very carefully as the buttery Apple Omelet Makes mixture scorches easily.
