

Big Game Hunting Thrills Audience

W. C. Bush Is Speaker for Silvertown Chamber Dinner Meet

SILVERTOWN—Captain Willard C. Bush, speaking before a large audience of chamber of commerce members and wives at the Wednesday night meeting, held his listeners spellbound for the regulation hour of the meeting program and after the meeting was formally dismissed members asked him to continue with his address, which he did.

Capt. Bush spoke on "Planting Rubber and Big Game Hunting" in the Singapore country. He was on a rubber plantation there for six years and also did considerable big game hunting. Of particular interest was his description of a day in the rubber "orchards" beginning at 4

o'clock in the morning and lasting until 2 o'clock in the afternoon. Rubber, he explained, was tapped like maple but resembled milk.

Describes Snakes
He also spent sometime describing the snakes, which he said, measured from three inches for a full-grown snake to 70 feet long.

The dinner was served at the Christian church. In introducing Capt. Bush, President T. A. Anderson announced that a book written by Capt. Bush describing his adventures in Africa will soon be off the MacMillan press.
