Prisoners' Keep Amounts to 66.71 Cents Daily Figures Indicate

It cost Marion county 66.71 cents a day to keep a prisoner in the county jail and \$1.067 a day to care for an inmate at the poor farm in 1932, according to a financial study submitted to the county clerk yesterday by the county clerk's office.

Total jail operating expense for the year was \$5366.13, of which \$486.99 was for meals, \$314.41 for medical service, \$304.17 for medical supplies, \$183.31 for repairs, \$62.55 for fuel and miscellaneous items totaling \$10.

The county's poor farm cost a total of \$5313.36. The farm board bill was \$3083.63.

Studies of the costs of operating the Stayton and Jackson hill crushers showed the latter to be higher but much of the excess expense was held due to repairs required to the crushing machine there after it had been moved from the Stayton rock pit where most of the wear and tear occurred. The Stayton crusher produced 22,791 yards of rock for \$8803.21, or at 38.64 cents a yard, while the Jackson hill plant turned out 21,106 yards for \$14,584.18, or at 69.09 cents a yard. Office of Sheriff Isn't Notified of Escape, Asserted

The sheriff's staff, not having heard Stewart had escaped from the hospital, decided there was no ground on which to hold him, and therefore gave him clothing and sent him on his way. Stewart told a story of having put his clothes wet and of their having been burned when he hung them up by a fire to dry.

"The state hospital didn't notify us of any escapes," the sheriff explained yesterday. "In fact they haven't done so yet."

Stewart is believed to be headed for California where he has relatives.
