

Boundary Hearing Today -The district boundary board will conduct a hearing at the courthouse this morning on petitions from the Sidney and Talbot school districts for a change of the boundaries between the two units. The change is intended to include in the Sidney district a portion of the Talbot district from which pupils are already attending the former school and to turn other land to the Talbot district in order not to upset the two districts' present assessed valuations. County Superintendent Mary L. Fulkerson yesterday arranged for a similar hearing February 25 on petitions affecting boundary lines between the North Santiam and Marion districts.
