"AUTOMATIC GAS WATER HEATING is one of the pleasures of modern living we enjoy most!"

say MR. and MRS. C. W. BOOST, 3100 S.E. Grand Avenue., Portland, Oregon

Read their entire statement:

"We've been married 53 years. In that time we've come to realize that all the comforts and conveniences we can get out of life are certainly worthwhile. Automatic gas water heating is one of the pleasures of modern living we enjoy most.

"In winter when we had coils in our furnace, our water used to overheat. We were constantly draining our tank to save our plumbing. In summer we always had to wait for water to heat. Now, with our automatic gas water heater, we always have plenty of hot water the minute we want it. Our hot water is always the right temperature—neither too hot nor too cold. And it's costing us less than before.

"We also have a new gas range which we like very much and which operates on the same low rate as our water heater."

Buy an automatic GAS water heater NOW!

GAS heats water

Any family can have plentiful hot water now! For automatic GAS water heaters cost less than any other automatic type. They also cost less to operate because GAS water heating rates are VERY LOW! They save you 10 to 30%—make GAS the cheapest automatic way to heat water. In fact, many people have found automatic GAS water heating cheaper than non-automatic methods.

Besides being cheapest, automatic GAS water heating is best. The service is absolutely dependable. No matter when water is drawn, the cold water that enters the tank is heated immediately. This speedy recovery gives you unrestricted service.
