

### Wheat's Slide Hats Finally

#### Buying Resumes; Market no Higher at Day End, However

CHICAGO, March 5.-(AP)—The wheat price slide registering market reaction to improved crop conditions in the southwestern belt came to a halt today.

Buying credited to export and milling interests and scattered short covering lifted quotations as much as 1/8 cent at times but in the face of lagging speculative activity and the market closed practically unchanged compared with Friday.

Wheat futures closed 1/8 to 1/16 lower compared with Friday, May 90 1/4-3/8; July 95 1/4-1/8; September 85 1/4-1/8; corn was 1/16 to 1/16 up, May 58 1/2-1/8; July 60, September 61 1/2; oats unchanged to 1/16 lower, May 29 1/4.

### Studebaker—Profile by Loewy

RAYMOND LOEWY, Berlin creator of-lejal locomotives, steamships, airplanes, sketched distinction into the 1938 Studebaker. Note how radiator grille and headlamps harmonize. Note, too, absence of hood louvers.

STUDEBAKER'S VACUUM SHIFTER IS handy and positive. Leaves front compartment clear. Now driving habits not necessary.

PLENTY OF ROOM FOR THREE—and plenty of room for a whole family's supply of baggage in Studebaker's trunk compartments.

### Auto no Mystery To Modern Girls

#### They're Learning all of Angles; Class Held, Whittier School

Do men know any more about automobiles than women? If they do, the time is coming when they won't, judging from a movement now under way in certain public schools, and destined to spread.

Just as women have qualified in recent years as voters and managers of business, voters and professional establishments, they are now starting seriously to learn what's going on when you sit behind the wheel and drive.

In one of the first exclusively-female automotive classes in America, young women were now devoting an hour each day, at Whittier Union high school, Whittier, Calif., to learning all about the intricacies of modern cars, according to information reaching C. A. Miller, local manager for General Petroleum Corporation, marketers of Mobilgas, who says:

"When a girl drives an automobile, what does she do? That's the question these young women are now qualified to answer.

"Through a course planned by D. H. Reamy, head of the school's department of industrial arts, the young ladies are being instructed by Clyde Irwin and George Cutler on the construction and operation of the motor, electrical and fuel systems; how women are now transmitting to the rear wheels; how brakes are built and operated; how tires are kept in good condition (yes, they are actually how to care for the inside and outside of the body); how the steering mechanism operates; what the traffic regulations and safe driving rules are; and the functions and importance of modern lubricants.

"Using a combustion analyzer for practical demonstration, J. D. Arden, an automotive engineer who operates a General Petroleum Mobilgas and Mobil station at Whittier, recently lectured to the class on present day 'High Compression Motors and Fuels.'

"The girls have all the answers, according to Arden. If one wishes to know the mechanical whys and wherefores of our modern miracle, the automobile."

### Girls Solve Mystery of Autos

Girls' automotive class learns how to test car operation. In top photo, J. D. Arden, Mobilgas specialist of General Petroleum Corp., shows how to find correct carburetor mixture with combustion analyzer. Below, class learns to tune up a motor.

### 25,100 Added to Farm Population Exceed Estimate

PORTLAND, March 5.-(AP)—Oregon's farm population increased 25,100 persons, or 11.2 per cent, to a total of 243,737 between April 1, 1930, and January 1, 1935, the chamber of commerce said today.

The organization said 250,573 cows on Oregon farms in 1934 produced 133,237,466 gallons of milk and 3,328,230 pounds of butter.

January 1, 1935, the state counted 3,093,592 chickens which produced 25,297,943 dozen eggs the previous year.

### Tax Payments to Exceed Estimate

Taxes on gasoline sales in Oregon for January, 1938, aggregated \$699,636.66 as compared with \$581,264.95 in January, 1937, Secretary of State Snell reported yesterday.

Approximately 13,992,733 gallons of gasoline were consumed in January, 1938, as against 11,625,298 gallons in January, 1937.

Gross receipts of gasoline taxes during the period February 25, 1938, to January 31, 1938, aggregated \$94,730,566.44, of which amount \$84,358,421.27 was credited to the state highway department.

Refunds aggregated \$9,485,358.55 and administrative costs \$34,697.51.

### Freeman Taking Applications for Crop, Feed Loans

Applications for emergency crop and feed loans for 1938 are now being received at Eugene, Oregon, by V. N. Freeman, field supervisor of the emergency crop and feed section of the farm credit administration. Freeman, who is director, a quarter of a mile away, was washed into her home by Wednesday's heavy rains. An engineering company which built Vidor's home was named co-defendant.

LOS ANGELES, March 5.-(AP)—A legal echo of the flood was heard Friday when Mrs. Ruth A. Hubbard filed suit in superior court for \$100,000 for damages done to her Beverly Hills home. She alleged that top soil from the home of King Vidor, movie director, a quarter of a mile away, was washed into her home by Wednesday's heavy rains. An engineering company which built Vidor's home was named co-defendant.

The loans will be made, as in the past, only to farmers who cannot obtain credit from any other source. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1938 crops or for the purchase of feed for livestock, and the amount which may be loaned to any one farmer in 1938 may not exceed \$400.

Farmers who can obtain the funds they need from an individual, production credit association, bank, or other concern are not eligible for crop and feed loans from the emergency crop and feed loan section of the farm credit administration. The loans will not be made to standard rehabilitation clients whose current needs are provided for by the farm security administration, formerly known as the resettlement administration.

As in the past, farmers who obtain emergency crop and feed loans will receive their first lien on the crop financed, or a first lien on the livestock to be used to produce or purchase feed for livestock.

### King Vidor Sued Over Flood Loss

LOS ANGELES, March 5.-(AP)—A legal echo of the flood was heard Friday when Mrs. Ruth A. Hubbard filed suit in superior court for \$100,000 for damages done to her Beverly Hills home. She alleged that top soil from the home of King Vidor, movie director, a quarter of a mile away, was washed into her home by Wednesday's heavy rains. An engineering company which built Vidor's home was named co-defendant.

### Buyers Lacking, Multnomah Pays Market Quieter Third Road Tax

#### Stocks Are Idle at Lower Levels; Inspiration to Buy Vanishes

NEW YORK, March 5.-(AP)—Stocks idled at slightly lower levels in today's market as traders conducted a fruitless search for buying inspiration.

After four consecutive weeks of net advances, the list turned in a loss for the past six weeks. Only on Tuesday were modest gains in the majority.

For the two-hour proceedings the Associated Press average of 60 issues was off .1 of a point at 44.5. On the week the composite was down 1.6 points. The turnover amounted to only 222,000 shares compared with 305,230 on the preceding Saturday. The week's volume of 2,678,875 shares was the smallest in more than three years.

### Hop Markets Are Firm; top Is 16

Oregon markets were steady to firm during the past seven days and although demand was less urgent than during other recent weeks, light offerings by growers were only about equal to market requirements. Prices paid producers were around the same levels as those prevailing during the previous period.

Trade reports indicated that Oregon growers could approximately 500 bales of 1937 crop. Clusters during the past week at prices netting them 1 1/2 to 1 5/8 per pound, variation depending upon quality, with the bulk of the business at around 1 1/2 per pound. Although no actual transactions were reported, it was indicated that good quality 1936 hops were being quoted at around 10c per pound, net grower. 1935 hops were only nominal with no interest shown in that growth.

There were no contracts for future delivery reported written in Oregon markets for several weeks past. Oregon producers, especially those with top qualities, were reported as not pressing their remaining supplies for sale, this holding tendency furnishing steadying market influence. Heavy shipments on contract and earlier sales to eastern and midwestern markets were being made prior to the March 1 tax period, according to trade reports.

### Suit Upon Liquor Agent Wins \$4500

PORTLAND, March 5.-(AP)—A circuit court jury awarded W. E. Hayward \$4500 yesterday in a damage action in which he sought \$10,000 from E. V. Lehman, an agent for the state liquor control commission.

The plaintiff charged agents had exceeded their authority in making an arrest, throwing him violently to the floor and injuring him.

The court directed non-suits against two other agents, R. A. Young and P. J. Simmons.
