

Woodburn Will Get 500 Trees

NYA Project to Beautify Parkings; Sidewalks, Curb Job Near

WOODBURN—Beginning Monday 500 trees will be planted in the parkings on the east side of town. The project is under the supervision of Woodburn post No. 15, American Legion. Details were completed at a meeting of the committee Thursday night. Major Oliver S. Olson is chairman of the committee which also includes George Adams, Willard Branigan and R. J. Robinson. H. M. Austin, commander of the local Legion post, and Street Commissioner John Muir will work with the committee.

NYA labor will be used to plant the trees and will be of no expense to the property owners. John Muir will supervise the planting. One hundred trees each of the ponderosa pine, Chinese elm, Russian mulberry, black locust and white pine will be planted. These are all hard wood trees. The west side of town and also the main roads leading out of the city are due to be planted later. Work will begin on the west end of Harcastle avenue and will go on until all the east side parkings have been planted.

The forestry department is furnishing free of charge the trees and the NYA labor used to do the planting. The property owners will have only to give them proper care after they are planted.

The tree planting idea was originated by Major Olson and it was one of his boyhood dreams to have trees growing on the east side of the city as are on the west.

To Construct Sidewalks

Eight men will begin work Monday morning, March 28, constructing curbs, sidewalks and driveways in Woodburn. This is a new WPA project and will afford property owners a chance to have concrete sidewalks and curbs put in for the cost of the material only. A small charge will also be levied for the use of the concrete mixer. Dewey Alleman, who has had considerable experience in concrete work, will be in charge of the new project.

The average cost will be around 35c per running foot for a four foot walk. No work, however, may be done on private property. In the case of present walks being in poor condition, a part of the same may be reconstructed under the same project.

Work to be done would be listed with City Recorder George Beach, John Muir, or any member of the city council, immediately with the money for the material to be paid in advance to the city.

The new WPA project along with the tree planting program which will be started by the local American Legion post Monday, will afford a chance for owners of property in the city to further beautify their places.
