#### Like Coin Flip.

While, as it was pointed out by sideliners during the tourney, the rule is just as fair to one team as the other, it doesn't follow that it is fair to either. The rule is by no means in accordance with sound basketball theory. It is a vicious, chancetaking method of either winning or losing a game. A flip of a coin would be about as sensible, in so far as the principles of sound basketball are concerned. It is about of the same calibre as some of the rest of the rules wrapped up by the national rules committee.

#### Nix on Huddle.

That gent who writes so many "horse operas" for pulp magazines, and who sidelines by presiding over the Pacific Coast Baseball league, W. C. Only two men will be allowed to confer with the pitcher, and one of these may be the game a second time to confer with a pitcher, he must reor be removed himself.

Finds Blast at News Men Hurts Self and League; University of Idaho, 52 to 23, Scans Emily Post

By PAUL MICKELSON BATON ROUGE, La., March college, Wempe and Withycombe, 24-(P)-Col. William Harold "the Terrible" Terry is going through a strange spring training season in this land of sociable people, crawfish, gumbo and oil.

> The terrible man's aim is to become a member in perfect standing in the Good Fellowship club and he's working harder on his training program than the rawest rookie in his New York Giant camp. All day and part of the night, except for his master-minding activities and conferences with his oil associates hereabouts, the colonel struggles on to achieve his goal.

> Awed baseball writers, whom he lambasted so unmercifully in his magazine piece last January, camp with a copy of Emily Post's latest edition on etiquette and a frayed volume of Dale Carnegie's book, "How to Win Friends and Influence People." To one flabbergasted author, he is reported to have vowed to make good as a good guy if "I have to give every newsboy my private telephone number."

> One reason for "Terrible Terry's" change of tempered pace lies behind his venture in the writing business. When, he wrote his magazine opus, he didn't dream of the sensation it would create. The piece actually hurt him more than he realized. It is true, he made a lot of friends but he made more enemies. Most of all he made several new enemies for the National League at the very time the senior loopshellacked in three world series games—needed friends the most.
