The latest victim Jack T. Ahern, 20, of Portland, was a thru through the windshield when his car struck a telephone pole at N. E. 4th street and Sandv boulevard about 2 a.m. Monday.

George Stanek, driver of the car, told police he had fallen asleep at the wheel.

Luffed L. Galloway, 19, of Portland, died of injuries suffered Saturday when the car he was riding in hit a tree near the Colwood golf course.

Flem McGlone, 36, of Rainier, died en route to a Lorview, Wash., hospital of injuries received in his automobile overturned in the Near Clair road near Rainier.

His brother, riding with him, escaped injury.

Four Are Drowned In Unusual Mishaps

Al Anderson, 57, of Lakeview, tumbled from a rowboat while trying to recover a lost oar and drowned in Ten Mile lake Saturday. The tragedy marred ceremonies dedicating the new Lakeview airport.

A canoe containing two 15-year-old Portland boys capsized in the waves of a passing motorboat on the Willamette river near Sellwood Saturday and Anthony Rekart drowned.

Paul O'Toole, his companion, was unable to save the Rekart boy, who could not swim.

George Andrew Truax, 54, of Applegate, drowned in a ditch near Grants Pass Sunday when the car he was riding in overturned.

The fourth drowning victim was an unidentified man, about 65, who officers said apparently fell into the Willamette river near the berth of the battleship Oregon in Portland. The body was found floating near the Hawthorne bridge.

SAN FRANCISCO, May 30—(AP)—The jeers and booms of 2,000 anti-Nazi demonstrators gave way to the muttered threats of a handful of pickets today as the two-day convention of the Pacific Coast German-American Bund came to a close.

Sightseeing tours and a meeting of the executive committee were the final events.

Several score demonstrators appeared soon after the scheduled 10 a.m. session today but dwindled under the watchful eyes of a score of uniformed and plainclothes police.

Four men arrested during a tense situation at the meeting hall last night were released on \$10 bail. Two incidents involving fistfights threatened to break the crowd out of hand momentarily but there was no general melee.

Clues to Missing Plane Prove Vain

ZEBALLOS, B. C., May 30—(CP)—Search planes returned to this west coast of Vancouver Island mining community tonight to report no trace of the Ginger Cootie airplane missing since Friday on a routine flight here from Vancouver.

Pilot Ralph Oakes and Provincial Police Constable John Cameron of Hazelton returned from Hequist Lake where they questioned Mrs. Ray Arthur. She had reported seeing a yellow plane flying low and apparently attempting to land on the lake, 35 miles south of here.

She could not remember the day she had seen the machine, said Cameron, and they expressed belief it had been one of the many search planes.

A second plane which investigated a report a plane had been seen at Zeballos, eight miles south of Zeballos, by Mr. and Mrs. C. Overton, returned without having sighted any trace of the airplane with Pilot Len Waagen and three passengers.

Credit Expansion Said 100 Billion

NEW YORK, May 30—(AP)—The Guaranty Trust Co., out today, reported the existence of a potential credit expansion "well in excess of \$100,000,000,000 in all."

"Even the most casual glance at the present banking situation leaves no room for doubt regarding the potentially inflationary character of the recent action . . . of the United States treasury and the board of governors of the federal reserve system in releasing inactive gold and reducing member bank reserve requirements."

"Just before the action was taken, excess reserves of member banks were estimated at \$1,730,000,000. They are now estimated at \$2,630,000,000, showing an increase of \$900,000,000. Moreover, as a result of the release of inactive gold, treasury deposits with the federal reserve banks now stand at \$1,183,000,000, which is about \$1,000,000,000 above the level at which they are usually maintained."

World Air Speed Record Bettered

OAKLAND, Calif., May 30—(AP)—In one of the most bitterly fought races in the annals of American closed course speed flying, Earl Ortman of Los Angeles, his canary yellow Maroon-Dromberg plane a mere hunk of color, streaked to a new world's record of 265.539 miles an hour today.

Ortman, nosing out Roscoe Turner of Chicago, the veteran speed merchant, brought the American closed speed mark back to the United States from France in the final event of three days of racing at the Pacific International air races.

On the 17th lap of the 18-lap, 150-mile race, Ortman, swinging wide around a pylon set in a marsh just east of the field, appeared to have almost brushed his wheels on the ground.

HENDAYE, France, May 30—(AP)—Spanish insurgents late today entered Mora de Rubielos, next to the last line of government defenses dominating the important Teruel-Mediterranean highway.

Government brigades were reported falling back both to the right, left and center of the line.

By taking Mora de Rubielos the insurgent gained domination of a strategic communication center and a network of roads connecting with the main Teruel-Sagunto-Valencia highway, eight miles to the south.

TOKYO, May 31—(Tuesday)—(AP)—Western Japan was "blacked out" for three hours last night and early today as protection against two mysterious airplanes, believed to be Chinese, which cruised along the entire length of the western coast of the island of Kyushu.

The craft apparently dropped neither bombs nor leaflets. It was Japan's second "bloodless air raid" in 10 days. Chinese planes on May 29 dropped leaflets on a 250-mile round trip flight from Hankow.

Japanese authorities were mystified and worried over the raid, fearing it might preface a mass attack. They appeared more alarmed than if the planes actually had dropped bombs.

The two children, whose father is a brother of E. H. Tarpley visited the latter's home Sunday and were tossing the "playing" about when the explosion occurred. According to a Dallas physician who attended the injured, the boy sustained painful lacerations to both feet and E. H. Tarpley suffered both burns and a wound in his forehead.

Local authorities on artillery fire are of the opinion that the accident must have been caused by a low power explosive, such as is used to touch off a bomb that is fired by impact and in turn set off by high power explosive within the bomb itself. Had it been made of high power explosive, they say, it probably would have wrecked the house and killed everyone in it.

Schuschnigg Gone But Fate Mystery

VIENNA, May 30—(AP)—They were breaking up housekeeping today at Belvedere castle, which until Saturday night was the home of fallen Chancellor Kurt Schuschnigg.

Blonde Countess Vera Fugger von Babenhause, Schuschnigg's 34-year-old fiancée, directed removal of furniture while speculation centered on the whereabouts of the ex-chancellor.

Schuschnigg left the castle Saturday night in company of German secret police. His destination was learned reliably to have been "somewhere north."

The countess, who followed him shortly in another car, returned today to supervise the removal of Schuschnigg's belongings.

Meanwhile, Vienna government officials who had promised to issue a statement concerning Schuschnigg postponed publication until tomorrow.

Berlin officials insisted Schuschnigg had not been taken away from Belvedere.
