Masonry Is Urged For School House

SILVERTON—The Silvertown planning council is asking that a masonry building rather than a wood or brick veneer building be voted upon at Silvertown July 15, when the bond issue of a new \$151,000 high school plant will be brought before the people.

The planning council came to its decision following a straw vote in the school district showing that more tax payers desired brick than wished for frame or veneer.

Where Bonneville Power Lines Will Be Erected

This map shows the power lines which will be built with the \$10,750,000 allocated yesterday by the PWA for transmission lines to carry Bonneville dam power. The black lines represent the lines to be built, while the dotted lines show what additional lines Administrator J. D. Ross had asked for but which were not provided for in the allocation. Where dotted lines parallel black lines, Ross had asked for double circuits instead of the single lines allocated.—(Associated Press Photo.)

Willamette Region Condition Critical

Care Urged on Campers by Fire Wary Forest Service Officials

DETROIT—Fire conditions in the Willamette National forest are critical at present and forest officials are urging all campers and forest users to exercise extreme care in the prevention of fires.

A general closure to all travel excepting on the North Santiam highway and on the Breitenbush road is in force, with other entry only by permit which may be obtained at the Detroit ranger station or any guard station.

Campfire permits are required for camping in the forest, and tools are required when camping outside posted camp grounds.

The North Santiam highway is in good condition to points east of Detroit. The Breitenbush road is in good shape and is open through to Olallie Lake and Mt. Hood. The Elk lake road is open but is rather rough. However no trouble is encountered in traveling to Elk lake. The road between Elk lake and the Little North Santiam is not open to public travel. The Scar mountain road is open to its end but is somewhat rough. Marion lake road is open to a point about three miles from the lake. Pamela lake road is open to within four miles of lake.

Fishing in the streams has been very good although recently the North Santiam has been somewhat riled below Whitewater creek. Pamela lake has been yielding good catches, as have Marion, Tumble and Twin lakes. Blue bright and bucktail caddis has been most popular flies. Prospects for the following week are good, generally.

Jamboree Is Staged, Camp

Boxing, Ball Game, Ping Pong Ball Blowing Among Events

By HUGH COLLUM
YMCA CAMP—Silver Creek Falls Recreation Area—The highlights of Tuesday's activities at the camp consisted of a big indoor jamboree and a ball game between the leaders' team and an all-star aggregation.

Boxing was a really live issue at the jamboree, there being six two-round bouts, all of which were no decision affairs, but cheered wildly by their backers. The Holland twins, and Harold and Hrid mixed it up in real brotherly style. Next came "Bob" Woodburn and Pete Hauser, the only flatcuts that drew blood, a mere trickle, but blood nevertheless. Bob Sedstrom and Reed Nelson put on a real lively affair while the old wild lasted. Gordon Weller and Evan Boise had an old-time sparring match. The last settoo was a high, wide and handsome affair, with Vern Flynn, the aggressor at one time and then "Bill" Morris at the next.

Leaders Take Ball Tilt The ball game was an in and out affair with the leaders com-
