By ANNE ADAMS Here's an easily-made dress to put more glamour into your life, and add to your love of sewing! Look at the face - flattering, heart-shaped ne kline - so prettily held in place by shirrings. And what could be sweeter than the way the little sleeves are shirred to match? Somehow that caught-up effect gives the arms new beauty! It's nice to know that the high-peaked waistline of Anne Adams' new Pattern 4911 seems to "slim down" the diaphragm. You may span it with an all-around belt or have tie-ends at front only. Whether your frock has short or long sleeves, you can count on it impressing people wherever you dine, tea or "bridge." Use colorful synthetic

or crepe georgette. Pattern 4911 is available in misses' and women's sizes 14, 16, 18, 10, 39, 34, 36, 38, 40 and 42. Size 16 takes 3 % yards 39 inch

in their new fall costumes. A suit of soft black woolen stops its sleeves just short of the wrist and shirs them into tight cuffs on the modified box-type jacket. Curved pockets follow the line of the cutaway and the center "closing" doesn't quite make it so that your prettiest blouses may see the light. Your first '38-type dolman sleeves might be well chosen in plum jersey (right) with epaulet effect from deep folds on the shoulders; and big hooks and eyes, more for trim than fastening. - Copyright, 1938, Esquire Features,
