

### Parking Problem Faced, Silverton

Merchants' Use of Space Blamed; Mill Workers and Farmers Irked

SILVERTON—“Car stand-all-day-strike” may be an innovation at Silverton in the near future. Mill workers and farmers alike are threatening to bring their cars to town early in the morning and use every available parking space along Silverton's business district for an all-day parking lot. Mill men report that when they come from their work in the mid-

dle of the afternoon there are no vacant parking places within the city's business district so that they may park long enough to purchase their day's groceries. Farmers are reporting an even worse condition exists Saturday nights. Both groups declare that local business men drive the three or four blocks from their home to their places of business and leave their cars standing outside these same business houses, or neighboring ones, all day.

### Whitewater Men Touch at Maupin

MAUPIN, Ore., Sept. 1—(AP)—Four Whitewater men, two of them amateurs, reached here tonight in an attempt to run the Deschutes river—the first try since two US geological survey men drowned 15 years ago.

George Godfrey, University of Oregon publicity man, said thrills had been plentiful in running Wapinitia falls. White Horse rapids and low water below Grand View bridge. He said the McKenzie river type boats had not been taken from the turbulent river in spite of many rapids.

### Oddities in the News

ALTOONA, Pa., Sept. 1—(AP)—The heat caused the congregation of the First Baptist church to move last night from the main auditorium to the basement for prayer services.

WASHINGTON, Sept. 1—(AP)—The goat is a much maligned animal, says D. A. Spencer, department of agriculture expert. Seldom does a goat butt human beings, and the story about goats eating tin cans is a myth. Their favorite diet is grass, weeds and tender twigs.

NEWARK, N. J., Sept. 1—(AP)—Police Judge Anthony Bianco was confident today Domenick Sena's rooster won't crow again in violation of the city's anti-noise ordinance.

Sena told the court: “I chopped its head off, cooked it and had it for dinner.”

PERU, Ind., Sept. 1—(AP)—Dexter Oliver, a farmer, did not know he would get four animals for the price of one when he purchased a Jersey cow several weeks ago. The Jersey presented Oliver today with triplets—two heifer calves and a bull calf.

PITTSBURGH, Sept. 1—(AP)—Allegheny county commissioners today changed the name of Catfish Run road to Corrigan road in honor of Douglas Corrigan, trans-Atlantic flyer.

its sesqui-centennial observance. His mother was born in a Pittsburgh suburb.

### College Flunking Serves Purpose

CHICAGO, Sept. 1—(AP)—If you flunk in college this year, don't get discouraged. You might be a success in business.

This counsel came today from Dr. Samuel N. Stevens, dean of the university college at Northwestern university. His explanation: “Any student who discovers his own abilities early takes a good head start in the race for business and professional success. The stiff jolt of flunking frequently jars the student into finding out exactly what his abilities are and where they will take him.”

### Lindberghs Land In Moravian City

OLMUETZ, Czechoslovakia, Sept. 1—(AP)—Col. and Mrs. Charles A. Lindbergh, flying toward Praha from Rumania on a European aerial jaunt, were held up by fog today and made an unscheduled landing at this Moravian city.

Lindbergh introduced himself to surprised soldiers and then to the mayor of Olmuetz who rushed out to escort the pair to a hotel where a large crowd gathered.

Col. Lindbergh telephoned the American minister in Praha, Wilbur J. Carr that he expected to reach there tomorrow.

To the Citizens of Salem:

I want to take this opportunity to congratulate our local theatres for their interest in, and promotion of, Motion Pictures' Greatest Year Campaign.

### “We'll Go Hungry First,” Say Pair To Efforts to Return Them to Ohio

PORTLAND, Sept. 1—(AP)—Relief authorities were defied today in their efforts to send Robert Devoe, his wife and baby back to Ohio by the young parents who said fervently: “We'll go hungry first.”

Last March doctors told the young couple their crippled two-year-old daughter needed sunshine and a mild climate if she was to live and walk.

They started for the coast carrying the baby and hitchhiked it in six months—taking

time out here and there when the father got work.

“Barbara Jane is better already,” the young mother said. “She can move her legs a little and can almost stand up. It's been hard going but she has had sunshine and she is responding and we're not going back. She can get well in Oregon and we're staying whether Bob and I eat or not.”

Devoe, a poultry worker, has been unable to find work and the state relief administration wanted to return them to Cleveland.
