Sudden Market Upturn Is Stimulus at Chicago, one Cent Gained

CHICAGO, Sept. 7 .- (AP)-Largely in response to sudden upturns of the New York stock market, Chicago wheat prices late today substituted about a cent gain for earlier equal losses.

Chicago traders ignored the circumstance that the jumps of securities were attributed to reports the Sudeten Germans had made a tentative acceptance of proposals for a basis of negotiations with Czechoslovakia, and that peace chances appeared better. Not until after grain dealings were ended for the day was it known the Sudeten German party had again broken off negotiations.

Winnipeg Rise Is Help A notable late upward trend of the Winnipeg wheat market served as an additional stimulus here. Export purchases of Canadian wheat were estimated as totalling 850,000 bushels, the first major buying from North America that European countries have done in some time.

At the close, Chicago wheat futures were 14-% above yesterday's finish, Sept. 61-61%, Dec. 621/2-1/8.

### 1938 Hop Crop's **Estimate Pending**

Wool in Boston

BOSTON, Sept. 7.—(AP)—(USDA)—
The wool market in Boston was very quiet today. Few holders or users of wool were making any effort to test the market. An occasional small quantity of good French length fine territory wool in original bats was offered for sale and the best hids were around 62 to 63 cents, scoured basis. Bids were accepted in a few cases but in mos# instances they were rejected. Most olders wanted 64 to 65 cents, scoured basis, for this type of 65 cents, sconred basis, for this type of wool. Graded territory wools were tive and normal quotations unchanged from last week.

## Prune Pack Seen **Underway Today**

Start Is two Days Later Than First Expected; Crop Is Green

Expectations are that Salem canneries will commence the green prune pack today. The start had been forecast for Tuesday of this week. One cannery ran a few prunes through on that day and reported them a little on the green side. Buying in the fresh prune mar-

ket is reported to be general at the pretty well established price of \$8 and \$6 per ton with a 16 count prune the breaking point. While the pack will be smaller

than normally, it is too early to say just what it will be as estimates vary. The crop is said to be a little larger than last year's when it was about 25 per cent of normal. Quality is reported to be

'Ruined," he decided ruefully. "You'd better go and change it be fore you catch cold." Her feet were narrow and shining in gold sandals. She stretched them toward the fire. Smiled at him, the corners of her mouth sweet with fatigue.
