statement, he has opened the way for a new and sweeping proposal to find a realistic basis for peace around a conference table of some sort, not at the muzzle of cannon.

His words seem an open hint to Hitler that he can gain more for Germany economically through peace than through war. It may have been the clinching argument that drew Premier Mussolini toward the Munich conference table in the unexpected role of peace-maker.

MOSCOW, Sept. 29.—(Thursday)—The United States yesterday suggested to the Soviet government that it address a peace appeal to Germany and Czechoslovakia similar to that sent to the two countries by President Roosevelt early Monday.

Early today the Soviet foreign office announced acceptance of the proposal.

(President Roosevelt also asked Japan to send such an appeal. The Japanese foreign office said it would give the suggestion "serious consideration.")

In a note communicated to Alexander Kirk, United States charge d'affaires, by Vladimir Potemkin, assistant foreign commissar, the Soviet government also warmly endorsed President Roosevelt's suggestion for an international conference to settle the Czechoslovak crisis, and offered to take an active part in it.

The foreign office called attention to the Soviet union's support of another American peace proposal—the Kellogg peace pact—and stressed that Soviet Russia always has been guided in its foreign policy by an aim of general peace and rejection of the use of force for solution of international conflicts.

Hoover Approves Roosevelt Moves

KANSAS CITY, Sept. 28.—(AP)—Herbert Hoover, food administrator during the World War and the leader of the Belgian refugee work, said tonight "the efforts of our government to maintain peace deserve our full support."

"The president will find every republican and every thinking person behind him in that effort," Hoover said. "In that there is no partisanship."

His comment on efforts of his successor, President Roosevelt, to persuade European powers to continue peaceful negotiations prefaced an address in which the republican leader attacked national government policies.

"Perhaps more vividly than any living American," he said, "I can look back over the long road of the past 25 years and count each milestone of futility and misery from the great war. Every nation was the loser. It brought no peace to the world."

Eleven months out of the year Earle enjoys his cigarettes and an occasional cigar.

But when February 1 arrives he refuses to smoke and remains an abstainer until the first of March.

Asked why he does not smoke in February and why he selected that month among all others, Earle said:

"Well, I just wanted to prove that I am not a slave to the tobacco habit. I probably selected that month because it is the shortest month in the year."

Salable Quality Of Nuts Greater

WASHINGTON, Sept. 28.—(AP)—A proposal that 80 per cent of the Pacific coast 1938-39 walnut crop be designated as salable and 20 per cent as surplus was submitted today by the agricultural adjustment administration.

A previous proposal for the marketing program fixed the percentages at 75 and 25, respectively, after a public hearing.

The new proposal must be approved by handler and growers in California, Oregon and Washington before becoming effective.

The 80 per cent figure, AAA officials said, indicated a salable quantity of about 602,000 bags compared with 597,000 bags moved in interstate commerce during the 1937-38 marketing season.

"Hot Car" Closing More Warehouses

SAN FRANCISCO, Sept. 28.—(AP)—More warehouses closed down today, making a total of 130, as the "hot car" of school notebooks and pencils rambled on its rounds and the fight between the CIO Warehousemen's union and the San Francisco Distributors association grew more bitter.

The public began to feel the pinch of the industrial situation, as store supplies dwindled on shelves and pickets in the department store strike continued to parade before entrances.

Meanwhile, the impending strike of 1200 AFL retail grocery clerks, seeking pay increases and improved working conditions, held another threat.

German Freighter Chased by Cutter

SAN JUAN, Puerto Rico, Sept. 28.—(AP)—The US coast guard cutter Unalga gave chase today to the German freighter Frida Horn which suddenly sailed from this port half an hour after docking.

The freighter was reported to have received orders not to be in a United States port should war break out.

The freighter left behind five passengers who had landed for breakfast and violated port regulations requiring clearance papers before departure.

Commander Paul Collins of the Unalga reported immediately upon his return from the chase to H. E. Moore, special customs agent, but neither would discuss the incident. It was reported the Unalga had communicated with the Frida Horn by wireless, but the nature of the message was not disclosed. The Frida Horn continued on her voyage in a northerly direction.

Conferees Are Off to Munich

Historic Meeting to Be in Fuehrerhaus and May Start at 11

(Continued from page 1)
by a tired, 60-year-old man addressing the British house of commons.

A piece of paper was handed along to Prime Minister Chamberlain in the midst of his speech... a pause to read it... then a change of tone in the sad recital of previous moves toward persuading Hitler not to take Czechoslovakia's Sudetenland by force.

Chamberlain disclosed that Mussolini had instructed the Italian ambassador in Berlin "at once to say, that while Italy would fulfill completely her pledges to stand by Germany... Mussolini hoped Hitler would see his way to postpone action which... was to be taken at 2 o'clock today... Germans joyous.

At Hope of Peace
The following full disclosure of the Munich conference plan.

Semi-official German sources called today's four-power gathering Hitler's "last effort to accomplish peaceful cession of Sudetenland." Unofficial Germans were joyful.

France's premier refrained from any expression of optimism and called up new troops to add to the more than 2,000,000 under arms. In a radio broadcast Daladier told his people simply that he would strive at Munich to preserve the peace.

Dispatches from Rome gave full import to overtures from Chamberlain and President Roosevelt—Mussolini had been drawn into the circle of peacemakers.

But the authoritative Italian editor, Virginio Gayda, warned against premature optimism. A settlement, he said, must follow the lines laid down in Hitler's ultimatum.

Fascism Support Hint Is Provided

WASHINGTON, Sept. 28.—(AP)—A House committee of un-American activities received testimony today that certain "fascist minded" American industrialists probably were supporting an organized Nazi movement in this country.

The testimony was given by John C. Metcalfe of Chicago, a slight young man with a Hitler-like mustache, who became a member of the German-American Bund to study its operations from the inside. He is an investigator for the committee now.

Metcalfe said some of the evidence he has obtained indicated a link between "high up American industrialists" and the Bund. He did not name them.

Nelson on Stand; Sanity Is Argued

Witnesses Disagree About Mental Status; Evans Says Partly Sane

TOLEDO, Ore., Sept. 28.—(AP)—Defense and state attorneys completed their cases in the first degree murder trial of Henry Nelson today and prepared for closing arguments tomorrow. Nelson is charged with the fatal shooting of Richard Earle, pleasure boat operator.

"It was either his life or mine," Nelson, whose attorneys sought acquittal by reason of insanity, said. Earle was slain at Depoe Bay last July after a deep sea pleasure jaunt. Nelson and his companion, Miss Lucille Coenenberg, 21, accused Earle of drunkenness and attempted criminal assault.

Dr. Robert E. Smith, Portland psychiatrist, testified for the defense that Nelson had been insane for six months prior to the shooting and described the condition as an emotional disorder causing sudden outbursts.

Earle's Reputation Is Also Debated
In rebuttal the state presented 14 witnesses testifying to Earle's good reputation, Nelson's sanity and the improbability of self-defense.

Dr. Henry H. Dixon, University of Oregon Medical school professor of psychiatry, testified he found Nelson sane and able to distinguish between right and wrong. Dr. J. C. Evans, superintendent of the Oregon State hospital at Salem, testified Nelson was "not entirely sane."

Three defense witnesses, all residents of Illinois, testified Earle had been arrested four times on drunk and disorderly conduct charges and once for assault and battery.

Sudetens and Czechs Battle

Yang Chieh

Sudetens moved freely across the border. Rations for Sudeten "free corps" members, including big urns of steaming soup were brought by cars from Sudeten headquarters at Arzberg, three miles inside German territory.

Fighting between the Sudetens and Czech troops was generally diminishing as both sides awaited the explicit terms of Hitler's ultimatum to Czechoslovakia Saturday.

The Sudetens were moving up only when the troops fell back for strategic reasons. Inside the Czech lines the backbone of Sudeten resistance had been broken, at least temporarily, but the general mobilization which took all men up to the age of forty into the army.

Many Sudetens escaped military service by fleeing into Germany. German newspapers reported that 40,000 Sudeten deserters from the Czechoslovak army had entered Germany. The Czechs say at least 25,000 students have been armed in Germany and are making night raids over the border.
