"Bob's decided not to take the foreign relations course after all. He says all his relatives are in this country!"

It seems Bob not only perpetrated a clever gag, but put it over on the little woman. Whatever her personal shortcomings, her bearing has dignity and chic—it couldn't help but have in this butterscotch-beige Jersey, whose straight, full sleeves square off from box pleat panels, which are stitched down (invisibly) to the hips. Light green apron panels, shirred spirally on the shoulders, provide the beloved color contrast on the dark green frock at the left.—Copyright, 1938, Esquire Features, Inc.

Women Hear of
New Products
For Beauty

Being style conscious, women will take the hint and take notice of their throats this year. A new cream, designed to make the throat more beautiful was produced because new fall fashions have spotlighted the neck.

Most women apply cream from the forehead to the chin, very much like, as little girls, they washed "from the forehead down to the chin, you could always tell where they end and begin." But the throat shows age, on the back of the neck appear lines of years, care is important to keep youth in neck and throat as well as face.

After the throat is thoroughly cleaned the manufacturer suggests applying the cream especially prepared cream which is left on for about 15 minutes. A cleanser is used to remove it and a soft astringent added to stimulate and strengthen the muscles.

Bananas Bake in Crust
For Dessert Dish

Baked bananas are a popular food for family dinners, especially now that the fruit is plentiful in price and high in quality. One new and interesting way to cook bananas is this: Mix 1/2 cup sugar, 1 teaspoon cinnamon, roll banana halves first in lemon juice, then in the cinnamon-sugar mixture. Put each half in a square of pie crust rolling up to completely cover it. Bake in a hot oven (425 degrees) until browned, about half an hour. Serve with hot spiced cream.

Accessories Blend
With Costume

This winter's fashion picture offers three interesting ways of using accessory colors. Accessories that match in color and contrast with the basic costume color—for instance, rich copper colored hat, gloves, shoes, and handbag worn with a gray or teal colored costume.

One or two accessories that repeat some trimming color and contrast with the costume itself. For example, a plum hat and bag, gloves and shoes in brown, worn with a milk coat over a plum dress. Or perhaps, a rich violet hat and bag, repeating the color of a jeweled ornament on a black dress, worn with black shoes and gloves.

All accessories—hat, bag, shoes and gloves—the entire costume—of the same color.
