## Military Aid For Colombia

#### US Naval and Air Mission Will Be Sent Central American Land

WASHINGTON, Nov. 26-(A)The United States government an-nounced today that naval and military air missions would go to the republic of Colombia soon to cooperate with that country in improving its defensive forces.

The step symbolized, to some students of Pan-American affairs, growing bonds between the Unitd States and Latin America for the common defense of the new world against any foreign aggressor. Five such missions already are on duty in other Latin American countries.

State Department Pleased "The department of state is pleased to announce," a formal tatement said, "that in response to the request of the government of Colombia, agreements were signed November 23 providing for he furnishing by the United States of a naval mission and a military aviation mission to cooperate with the Colombian minis- digit. try of war. The two missions will function in an advisory capacity to the Colombian navy and military

air forces." The action is of particular importance to the United States because of Colombia's proximity to the Panama canal, a vital artery n the American defense system. The Panama Canal Zone, now owned by the United States, formerly was part of Colombia.

The announcement was accompanied by publication of a friendly exchange of notes between Presdent Roosevelt and the Colombian senate.

#### Bridge Replacement Is Authorized by County

Replacement of a 65-foot bridge on the Abiqua road half a mile above Syron's mill has been authorized by the county court. A culvert and fill will be constructed in place of the old structure, which has become a hazard.

The court also has directed the laying of tile at the North Santiam school to eliminate a water condiion and the cutting of a hazardous corner there.

#### Oiling Is Requested

The county court yesterday was surfacing the 3 1/2-mile section between the Hazel Green church and the Silverton road. The request was made in a petition signed by aggregation. Dr. P. A. Loar and 194 others.
