**MANY NEVER SUSPECT CAUSE OF BACKACHES**  
 This Old Treatment Often Brings Happy Relief  
 Many sufferers realize nagging backaches quickly, and they discover that the real cause of their trouble may be tired kidneys.  
 The kidneys are Nature's chief way of taking the excess blood and waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.  
 Frequent or steady passages with smarting and burning when there may be something wrong with the kidneys or bladder.  
 An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backaches, rheumatism, leg pains, loss of pap and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness.  
 Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
