CHICAGO, Jan. 12-(AP)-The wheat market fluctuated today within a range of % cents to close unsettled. July and September contracts were slightly

Bit Unsettled

Speculative interest was at low ebb. Fractional gains of as much as 1/2 cent appeared around midsession but selling predominated in the final hour. Less pessimistic tone of crop reports from some sections of the winter wheat belt accounted partly for liquidation of new crop contracts while weakness of the stock market discouraged buying.

Corn Bit Weaker Wheat closed % to % lower compared with yesterday, May and July %-%; corn unchanged % off, May 52 %-%, July 53%; oats unchanged to 1/8 down; rye 14-1/2 higher; lard unchanged to 5 lower.

Federally financed buying of cash wheat in the southwest, though rumored recently, has not been confirmed although the movement of wheat to the seaboard and expanding clearances from ports indicated, traders said, recent export contracts are being filled.

NEW YORK, Jan. 12-(P)-Armament shares, spotlighted by President Roosevelt's defense message, set a dissy course for the stock market today and emerged from erratic travels at somewhat lower levels.

The market swung up in the forenoon before the publication of the president's arms proposals, then sold off sharply with the "war babies" and recovered partially again before the finish. The net result was only a small loss Calumet Hec .. for most stocks and a few managed to come out with gains.

The president's defense figures prospective arms spending trumpted about in speculative circles during recent booms in the "war" stocks, particularly steels and aviations.
