THE ENTIRE COST OF THE C.C.C. COULD BE PAID FOR BY THE TAXES OF THE BREWING INDUSTRY!

The Treasury Department shows expenditures of 326 million dollars for the Civilian Conservation Corps for the fiscal year of 1938. The brewing industry pays over a million dollars a day in taxes.

What Beer contributes to the re-building of America would fill a great volume

Over 400 million dollars in taxes every year. Over 1,000,000 jobs. A market for 3,000,000 farm acres of produce.

The brewing industry would like to preserve for itself and the people the many economic benefits it has created in the past five years. Brewers everywhere realize that this is a question bound up with the proper distribution of their mild and wholesome beverage through retail outlets whose character will be a credit to the community. Obviously, the brewers can enforce no laws. But they can—and will—cooperate with the local law-enforcement authorities. They will cooperate with every group—friend or critic—to the end that retail beer outlets give no offense to anyone.
