How to Ease CHEST COLD MISERY

FIRST—massage throat, chest, and back with Vicks VapoRub at bedtime. This relieves the distress.

THEN—to make its long-continued action last even longer, spread a thick layer of VapoRub on the chest and cover with a warm cloth.

LONG AFTER sleep comes, VapoRub keeps working—loosens phlegm—eases muscular soreness or tightness—clears air-passages—eases coughing—relieves local congestion.

Often, by morning, the worst of the cold is over.
