Auditor Makes Report; Hall Discussed by Cleo Jenkins

INDEPENDENCE—A. L. Amacker, certified public accountant of Hillsboro, who just completed the audit of the books of the city of Independence, appeared before the city council Wednesday night and reported all records in good order.

Amacker complimented the city on the fact that the budget called for an expenditure of \$11,070 and that expenditures were actually only \$10,644.12 during the year 1938.

His report showed that on December 31, 1938, the city had a total outstanding indebtedness of \$3,500, including \$1,500 in warrants, \$1,500 in library bonds and \$500 in street intersection bonds.

The report showed that the city had \$3147.50 in permanent property, which included the city hall, the water shed and boy scout camp and the fire equipment. The cash on hand as of December 31, was: General fund, \$1500.45, road fund \$326.32, improvement fund \$200.21, street intersection fund .75, library fund \$128.50, and the total in all funds of \$2,199.27.

Chief of Police William Noble suggested the hood of a warning light at the corner of Main and Monmouth streets. He reported that there were several articles of value, which had been held at the city hall for considerable time and was advised to consult with the city attorney about advertising them for sale.

The matter of a peddlers' ordinance was discussed and the ordinance committee asked to make a report at the next meeting of the council.

Cleo H. Jenkins, Albany architect, appeared before the council and outlined plans for a new city hall. He estimated that a hall could be constructed here for from \$12,000 to \$15,000. The council took no action.
