Marked Closes Unchanged to 3/8 Cents Under as Day Ends

CHICAGO, March 23—(AP)—As fear of European war waned, the wheat market weakened today. Trade volume diminished and bearish market factors pushed into the background by the war scare again assumed importance.

Prices dipped as much as 1/2 cent but moderate commercial buying, based partly on indications of improved international trade, pared early losses and the market closed unchanged to 3/8 cent lower compared with yesterday's finish, with May at 67 1/2-3/4 and July 67 1/4-1/2.

Except for moderate selling of corn, trading in other grains was dull. Corn closed 1/4 cent lower, May 47 1/2-3/4, July 49 1/4-1/2; oats unchanged to 1/4 higher; rye 1/4 cent lower; hard 2 to 5 down.

After the close the government announced 21,000,000 bushels of wheat and flour had been sold for export since July 1, indicating the goal of 100,000,000 bushels is near.
