

Hopmen Elect Advisory Man

1939 Member for District to Be Named Tonight at Chamber Meet

Hop growers in district 6, comprising parts of Marion and Polk counties, will meet at the chamber of commerce here tonight at 8 o'clock to elect the 1939 member from this district on the advisory committee for the hop control board.

Similar elections will be held in the other 11 growing districts of Oregon today, and in Washington and California.

The advisory committee will later select two growers, either from within its membership or at large, to serve on the hop control board. Two other growers, selected by this six, will complete the grower membership on the control board.

Other district meetings in this vicinity will be:

District 3, at chamber of commerce in Albany, 8 p. m., Benton and parts of Linn and Marion counties.

District 4, city hall at Independence, 8 p. m., southeastern Polk county.

District 5, Eagles hall at Silverton, 8 p. m., eastern Marion county.

District 7, courthouse at Dallas, 8 p. m., parts of Polk and Yamhill counties.

District 8, Mc Angel city hall, 8 p. m., parts Marion and Clackamas counties.

District 9, Aurora grade school gym, parts of Marion and Clackamas.

District 10, city hall at St. Paul, parts Marion and Yamhill.

General Booth Is Lauded at Dinner

Lt. Col. Gilks Paints Life of Friend, Founder of Salvation Army

Vibrant echoes of the life and work of General William Booth, founder of the Salvation Army, were voiced at the "Founder's day" dinner at the local army citadel last night by Lt. Col. W. Roy Gilks London-born man who "knew him when." Col. Gilks, who became a Salvationist officer in 1886, recalled vividly his long association with General Booth as a member of his staff, recounted the leader's devotion to his combined cause of religious and social work and pointed out that he was alike respected by monarchs and revered by laboring men, their wives and children.

Governor Sprague Speaker Recalling that the local army advisory board under local construction of the new citadel "with more faith than money," Governor Charles A. Sprague told the more than 60 townsfolk at the dinner that "we are going to get dividends in service in this community" from the new building and its staff, headed by Adjutant and Mrs. John Allen. Other speakers included Mayor W. W. Charlock, Major Donald Einarth of Portland and William McGilchrist, jr., chairman of the board.

Hope to Create Pole Neutrality

(Continued from page 1)

they said, would show the world that they were "not exorbitant" and in a way endorsed the "independence of territorial integrity of Poland."

Meanwhile Britain, the Netherlands, all small nations likely to be enticed by the British "encirclement of Germany" policy and President Roosevelt were taken to task today's propaganda.

President Roosevelt was the subject of an attack by Propaganda Minister Paul Joseph Goebbels' newspaper Der Angriff. The paper characterized as "impertinence" the president's "I'll be back in the fall if we don't have a war" farewell to friends in Warm Springs, Ga., Sunday.

Der Angriff also said the remark was "coarse barking up the wrong tree."

Dr. Angriff's second edition devoted its largest headlines to President Roosevelt, but its first edition featured an attack on Britain by naval labor front leader Robert Lay.

Greeks Put Okeh To Duce's Pledge

(Continued from page 1)

of the Adriatic as virtually an Italian sea.

That is the most evident practical effect of the armed occupation of Albania, along with the certainty of Italian monopoly over the development of its oil and other resources.

Foreign capitals have feared that Albania might become the gateway to Italian-German conquests in the Balkans, with Greece in particular danger. But Mussolini, with troops on the Albanian, Greek frontier promised that Italy would respect Greek territorial integrity.

The fascist press indicated that Italian assurances of Greece's safety implied Greek abstention from political transactions with Great Britain, especially any that would give the British fleet the use of Greek ports in time of war.

Baker Sees Snowstorm

BAKER, Ore., April 12.—(AP)—A brief snowstorm recessed spring weather in the Baker region last night. Mild showers of the last few days brought precipitation to 2.2 inches, considerably more than the total amount for March.

Nickel-Chaser's Jackpot

A lad accused of stealing 13 automobiles and wrecking telephone coin boxes for their five-cent pieces led five police squad cars on a 36-mile an hour chase along the winding lanes of Portland's Council Crest. Below, Erwin H. Ulrich, 19, with two of the boxes he confessed to Captain John Keegan that he rifled. Above, the bullet-crashed car, wrecked on a steep hill. Equipment and property damage caused by tearing the boxes from the walls amounted to more than \$2000.—AP photo.

Biggest Pie Plan At Lion Conclave

20-Foot Pastry Will Be Prepared and Served Here June 19-20

The Salem Lions club convention committee met yesterday to draft plans for the district convention to be held here on June 18, 19 and 20. Among the ideas presented was the innovation of the world's largest cherry pie. This pie, measuring nearly 20 feet across, will be baked by local bakers and will be served to convention visitors at the Oregon state school for the blind. Arrangements are being made to have Governor Charles A. Sprague and Earl Snell, secretary of state, officiate at the big pie serving. It is understood that the news-reel companies will send crews to record the incident.

Barkley Newman, chairman of the Indian breakfast committee, promises that the wild west breakfast which is scheduled for the Salem Indian school will be an outstanding feature. Other members present for the meeting were Harry W. Scott, Al Ramseyer, club president, Bill Newmeyer, Lee Ross, L. S. Christison, Ed Schreder, Glenn Gregg, Percy Blundell, Barkley Newman, Tommy Elice, the general chairman, and Frosty Olson, who presided.

The tentative program for the convention includes aside from regular business meetings, a golf tournament for teams, and a duffer tournament for the poorer players. It is expected that over 500 Lions from the state will be present in Salem on the convention dates.

Hero May Accept Medal Again; Has Job as Policeman

BOISE, Idaho, April 12.—(AP)—Thomas C. Neibaur may take back the congressional medal of honor given him by General John J. Pershing more than 20 years ago for valorous conduct during the World war.

The Sugar City, Idaho, war veteran—one of only a hundred recipients of the award—mailed it last week to Senator Willis E. Borah (R-Idaho) with instructions that it be returned to the war department because his 48-month check as a works progress administration laborer was "not sufficient to support a medal of honor."

But now Idaho's soldier hero has a job. He will don a uniform as an Idaho capitol policeman at a salary of \$125 a month—enough to let him feed and clothe his wife and seven children. He will continue to receive \$300 annual disability compensation.

The appointment of Neibaur was ordered by Governor C. A. Bottolfsen, after Neibaur's World War buddies rallied to his cause.

The coins, Captain Foster said, were sent to Anolik by special messenger, express and mail. Special messenger once took \$18,000 worth of coins in one trip east, the captain said.

The secret service said the method by which the coins ultimately were disposed of had not been learned definitely. Agents theorized, however, that they might have been melted down and resold to the US mint. A \$20 coin contains an ounce of gold, the present scale of 3:5 an ounce would provide a gross profit of \$15 on each such piece, agents said.

Propaganda Gets To Armed Forces

WASHINGTON, April 12.—(AP)—The navy department, endorsing a bill to eliminate subversive activities of aliens, disclosed today that it was having difficulty combatting the influence of undesirable foreign influences among its men.

Testifying before a house judiciary subcommittee, Commanding Officer Albert H. Bledsoe, of the bureau of navigation, said: "From time to time, we receive word that organizers are attempting to influence, by subversive influences, the morale and discipline of the navy."

"The department is handicapped by lack of sufficient legislation," he said. The bill under consideration, by Rep. Smith (D. Va.), would declare unlawful the advocacy of overthrow of this government by force and violence.

Insurance Denied To German Boats

NEW YORK, April 12.—(AP)—Underwriters, expressing fear of a general European war, have withdrawn war risk insurance rates on shipments to and from Germany and Italy and on shipments in Italian and German waters. They also have advanced war risk rates to some other ports.

The underwriters said they would quote rates for Italian and German coverage only upon application and that the rates would depend on the likelihood of war at the moment.

Man Races Horse To Test Stamina

EDMONTON, April 12.—(CP)—E. Bower, 45-year-old war veteran, who wants to prove again that a man can beat a horse in an endurance test, stubbed his toe as he ran the horse while leading his opponent, My Time, by 2 1/2 miles in their six-day race at Edmonton fairgrounds.

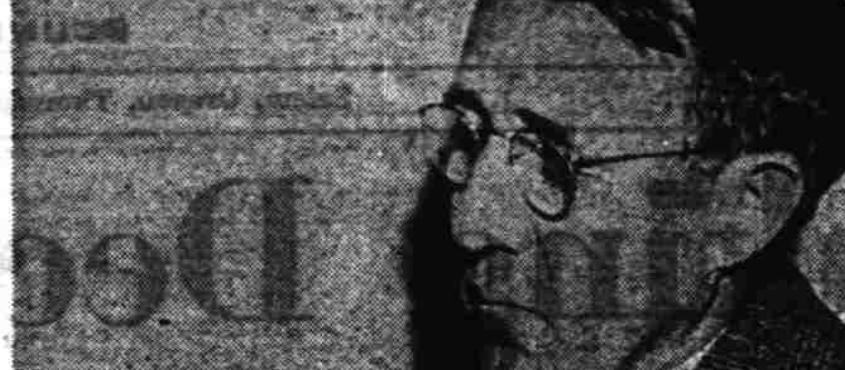

Bower, who had planned to run until 8 p. m., left the track after completing 66 laps on the half-mile track during the second day's running. The horse, taken from the track at 5 p. m. after having travelled around the oval 66 times since both runners began running at 10 a. m.

Salem Families Are all Tied up

VANCOUVER, Wash., April 12.—(AP)—Three Salem, Ore., sisters married two brothers and another man, all of Salem, yesterday.

The couples were Clair C. Thompson, 24, and Julie A. Robinson, 18; Charles W. Robinson, 31, and Martha E. Robinson, 26; Rufus Tom, 21, and Eva M. Robinson, 16.

Tarantula Bite Found "Not Bad"

Dr. Karl Hazeltine of the San Jose State college science faculty points to the finger where he was accidentally bitten by a tarantula spider in an unplanned experiment. Dr. Hazeltine did not treat the bite but observed its effects and announced that "despite its reputation as a killer," the bite of the tarantula "is similar to a bee sting and has about the same effect on the human body."

Prison Parolees To Be Announced

Prominent Prisoners Who Are Released Will Be Told to Public

The state parole board will give out news of parolees for prisoners, in whom there is a statewide interest, under a new policy announced here yesterday by Governor Charles A. Sprague.

Up to this time the names of parolees have been kept secret, the theory having been that these prisoners deserve a new start in life without publicity.

The board will continue to keep secret the names of all prisoners who are to come before the board. After the board meetings, held each month at the state prison, the board will disclose the names of the more prominent prisoners receiving paroles. A prisoner is eligible for parole if he is a first offender and has served one-third of his sentence.

Edwards Off Board The board will meet today and Governor Sprague is expected to announce soon the new board which, starting June 14, will fix minimum sentences of new inmates.

Members of the board are Cecil Edwards, governor's secretary who automatically is removed from the board by the new parole law; Gerald W. Mason, Portland, and Dr. Floyd L. Utter, Salem dentist.

The new law provides that at least one board member shall be a democrat, so either Mason or Utter, both democrats, might keep his job.

Famous Brougner Family to Visit

James W. Brougner and two Sons Will Speak Here in August

Word has been received by Rev. Arno G. Weniger, the pastor of the Calvary Baptist church, that the three Brougners have accepted the invitation of the church to supply the pulpit for the month of August. This will bring James Whitcomb Brougner and his two sons James Whitcomb jr., and Russell M. to the city.

Dr. Russell M. Brougner held a series of meetings in the Calvary Baptist church during the latter part of January and the early part of February. His brother, James Whitcomb Brougner, jr., is pastor of the First Baptist church of Glendale, Calif., one of the strongest churches in the northern
