

Yes, Sir They Saw the King and Queen!

The only untoward incident during the triumphant eight-mile drive of King George VI and Queen Elizabeth through Ottawa, Canada's capital, occurred when an unidentified man broke through the police line to hold up his child for a view of the visiting monarchs. The queen watched with interest, but notice the undisguised shock on the face of the coachman at the right.

### Benefits of City Managership Told

#### Greyhound Bus Program Slated at Silverton for Early June

SILVERTON—J. L. Franzen, city manager at Oregon City for the past 14 years, was guest speaker at the Silverton chamber of commerce Tuesday night, giving the history of the city manager form of government taking it from its birth at Staunton, Virginia in 1908 up to the present time when better than ten million Americans have chosen to live under the city manager form of government.

Oregon towns having this form are, according to Mr. Franzen, LaGrande, Astoria, Hillsboro, Oregon City, Varren-ton, Bead and Forest Grove. Close to 100 towns with population below 3000 have a city manager, he said. About 30 per cent of the city managers are graduate engineers, according to Franzen.

At Oregon City, Franzen cited out, indebtedness totaling \$960,000 in 1924 was cut to \$338,500 in 1938. Franzen explained this ability to reduce taxes as the result of one man's efforts being put to manage the city instead of its management being left to a number of men who had other business to attend.

#### Gets Bus Publicity

SILVERTON—One more piece of Silverton publicity will go out in June when one of the new Greyhound buses is to be christened at Silverton. It will go forth under the Silverton name and will carry a slogan to be selected by Silverton people. The bus will travel on a main route, it is reported by Greyhound officials.

#### Turn Down Proposal

SILVERTON—The board of directors of the Silverton chamber of commerce voted not to take advantage of the publicity scheme which Meier & Frank offered them. The Portland store offered space for a Silverton display, but due to the time Silverton has to put on preparing the float for the Rose Festival, the directors felt nothing more could be undertaken at the time.

### Farmers' Union News

An urgent appeal to public-spirited citizens to join hands with farmers in seeking solution of the power problem, was made by George W. Potts, retiring president of the Oregon Farmers' union, in his address the opening day of the state convention, now in session at Monmouth.

He said the new PUD law "is not exactly as we would have it . . . nor are any of the other laws affecting the welfare of agriculture." He urged farmers, before the next legislature, to create utility districts and electric co-op associations for use of Bonneville power so "we will have an irresistible argument when we go to the next legislative session."

He declared the rural power future is jeopardized by shortsighted interests seeking to run cities into municipal ownership, ignoring the rural areas and farmers.

On the matter of taxation, President Potts said: "The farms of Oregon are carrying a much higher ratio between actual value and assessed value than any other industry in our state. Most of the farms are being assessed on a value from two to three times the actual cash value. The statute specifically states that all property shall be taxed on an equal and ratable proportion—then why discriminate against the agricultural industry?"
