

# Wheat Stages Dull Saturday

### Pit Is Nervous as News From Wheat Belt Is Good and Bad

CHICAGO, June 3.—(AP)—After fluctuating nervously through one of the duller sessions since the bull market based on crop scare began six weeks ago, wheat prices today closed unchanged to 1/4 cent lower compared with the previous finish.

Quotations slipped 1/4 cent at the opening to around 77 cents a bushel for summer delivery contracts, lowest in more than a week, but then developed recovery power that rallied the market at times as much as 3/4 cent. At the close July wheat was quoted at 77 1/2 and September at 77 1/4.

Weather continued to dominate trade, with good rains improving recent more favorable conditions for crop development, but fair and warmer weather was in prospect for much of the grain belt.

Selling was encouraged by weather and belief expressed in some quarters that recent improved weather conditions may be reflected to a greater extent in the official government crop report to be issued next Friday.

On the other hand, buying, credited partly to jangling interests, was based to some extent on the supporting effect of government loan rates, which are above future quotations in most markets.

# Oooh! What a Light!

The largest lamp ever manufactured has amazed many a visitor to the General Electric Co. display at the California World's Fair, as well as little Miss Beverly Ann Rheder of Oakland, Calif., a 3-year-old who looked over the Exposition with her mother. The huge lamp of 50,000 watts is two and a half feet high and Beverly just can't see-MAG-ine who'd use such a whopper.
