His name, however, is 12th on the cup's inscribed list, for Bend's Nelson won in both 1937 and 1938.

In 1927 the Oregon State High School Athletic association appointed a state high school records committee, comprised of Neil Smith of Seaside, as chairman, Marble Cook of Beaverton and Delbert Scott of Scappoose. Principally through efforts of Chairman Smith, the state high school track records were brought up to date. Included in those records half mile. Should Be Recognized It is Gilmore's opinion that not only Windnagle's half mile mark by Wilson of Washington, also in Miss Foster, a careful, accurate 1912, should be recognized as exords in those events.

But until unanimous recognition is given to either Windnagle's or Nelson's half mile record, Gilmore's statement that Shinn may crack the state high school half mile record next year is a bit too elastic. There are four and onetenth seconds between the two "state" marks. To Gilmore the state mark is in

reality Windnagle's record. And he makes no boasts that Shinn will be able to eclipse it. The husky Salem runner would have to lower his 1939 time by a full six seconds-which is a long way to come in the span of one brief year.
