Kin Identifies Slain Baby

"The dirty skunk." Those were the words of Oren Baker, 64, as he identified the tiny body of his 10-week-old grandson, Haldon Fink, who had been snatched from his cradle and tossed into a creek near Clyde, O. The grandfather is shown as he lifted the covering from the baby's body to identify it.

The boys will have a picnic dinner in Bush's pasture, will attend the softball games at Sweetland, and will be bedded down in the YMCA gymnasium for the night. Arising Saturday morning the boys will swim at the Y, be breakfasted and attend the YMCA Junior Olympics swim meet at 10 o'clock.

Panama Stamp Is Okehed by Farley

WASHINGTON, June 15—(AP)—Postmaster General Farley today authorized the issuance of a 2-cent postage stamp to commemorate

the 25th anniversary of the opening of the Panama canal August 15.

The stamp will have portraits of former President Theodore Roosevelt and General George W. Goethals, who directed the construction of the canal.

Finland Is Again Only Land to Pay

Hungary Pays Some Down on War Debt Bill, Others Renege

WASHINGTON, June 15—(AP)—When the government closed its war debt books tonight at the end of a semi-annual installment day it found it had received 80 cents for each \$10,000 due.

Only one nation, Finland, paid in full—a payment of \$180,693. One other of the 13 debtors—Hungary paid something on account—\$9,828.

One nation, Rumania, said it was ready to offer a settlement, but did not state its terms. Eight nations sent their regrets, together with promises to discuss settlement at some time in the future. They were Estonia, Great Britain, Latvia, Lithuania, Yugoslavia, Belgium, Poland and Italy.

One nation, France, had not replied to the usual bill sent out every May, but her reply (or regrets) was expected momentarily. The 13th had not replied because the usual bill was not sent her. Czechoslovakia has disappeared.

For the 13 debtors, the score stood: one payment, one part payment, one offer, eight regrets, one reply on route, one reply lacking. The total amount due June 15, including amounts not paid in recent years, was \$2,269,733,861. The total amount received was \$170,521.

Australian Labor Problem Settled

Financier Predicts This Country Will Recover From Turmoil

SAN FRANCISCO, June 15—(AP)—The industrial troubles besetting America seem like old stuff to I. M. Jacoby, Australian financier, who said here today his country went through it all 20 years ago and came safely out on the other side.

He predicted that in another five years, this country would have worked out "the answer." "First you've got to get rid of your labor racketeers," he said. "Second, you've got to have an arbitration system that will work."

Leaders intelligent in Australia, he said, workers took care themselves of the important matter of selecting labor leaders who were "intelligent and devoted to the interests of their men." Then, federal and state labor courts were established, and began handing down decisions which were final and binding. Almost every large firm has a labor relations man, he said, friendly and sympathetic to the

unions and yet holding the ear of the firm's executive. Although the unions did not get quite as large a share of profits as they sought, he said they had won the right for a fair share, and they have unionized the country pretty thoroughly, on a craft basis. "It's especially interesting to note," he added, "that this evolution, while it was a revolution in a sense, did not result in radicalism gaining any foothold in the country. The words 'red' and 'Marxist' and 'radical' flew around while the trouble was on, but now, the words are hardly known in the country."

Engineers Start Anchoring Jetty

ASTORIA, Ore., June 15—(AP)—United States engineers started anchoring the seaward tip of the Columbia river north jetty with concrete blocks this week. They began the task of dumping 1700 cubic yards of concrete in huge chain-fastened blocks to replace experimental asphalt tugs washed away by surf pounding around Peacock Spit. Engineers also put the government dredge McKenzie to work removing shoals which caused repeated shipping tie-ups when white water broke over the bar last winter.

Pop Would Take Rap for Carson

Mayor's Father Expresses Wish to Be Punished for Hat Chucking

PORTLAND, June 15—(AP)—From Hood River, Ore., came a touching plea today to the police commissioner—a father offering to take the rap for his son.

J. K. Carson, sr., said he read in the papers his son Joe got a little out of line by throwing his 6-year-old Rose Festival straw hat into the Willamette river in violation of paragraph 18 of ordinance 37621. He said that Joe essentially was a good boy but youngsters would slice one off the legal fairway occasionally. He agreed they should be punished. Carson, sr., said the fact that Joe was mayor of Portland did not lessen the magnitude of the offense against paragraph 18 one bit.

Paragraph 18 forbids the heaving of floats and jetsam into the Willamette river. But Carson, sr., wondered if he couldn't take his son's place

before the bar of justice. "I'm past 75 and no good anyway," he wrote. "Just send Police Chief Harry Niles or Inspector L. V. Jenkins after me. I'm ready to go." Neither Niles nor Jenkins made a move. "It's up to the boss," they said. The boss, commissioner of public safety in charge of the police bureau, is Mayor Joseph K. Carson, jr., whose only comment was: "Say, that reminds me. Isn't Sunday Father's day?"
