Violence Flares at Harlan; 1 Dead, 6 Hurt

One miner was fatally shot and six other persons wounded, including a woman and a National Guard officer, at Harlan, Ky., when violence flared as guardsmen marched approximately 250 persons, arrested in disorders at the Mahan-Ellison mine to the Harlan jail. The shooting followed what Captain Ben Herndon of the National Guard said was an attempt by one of the miners to wrest a rifle away from a National Guardsman. The National Guard is shown marching the group of 250 to the jail.

NLRB Shifts Rule For Union Ballots

New Policy of Voting Is Hailed as Victory for AFL

WASHINGTON, July 13 .- (AP)-The national labor relations board, in a split decision, engineered a major change in policy today requiring labor unions to undergo a secret ballot test instead of a simple showing of membership cards to win exclusive bargaining rights.

The new policy is hailed by the American Federation of Labor as a victory for it. The CIO made no comment immediately.

The board disclosed its change of policy in a 2 to 1 decision ordering an election within 15 days for Cudahy Packing Co. employes in Denver despite a claim by CIO's packing house workers union that its membership cards showed it represented a majority of the workers.

The CIO and the independent packing house workers union of Denver will be named on the ballot and employes may vote for either or neither.

Board Member Edwin wrote a dissenting opinion, saying he saw no reason why the board hould not certify the CIO union vithout an election.

But the board majority, Chairman J. Warren Madden and the newly appointed member, William M. Leiserson said bargaining relations would be "more satisfactory" if doubts and disagreements as to the wishes of the employes

Greeley Raps Lumber Pacts

Says Trade Treaty Gives Away Markets While 25,000 Idle

PORTLAND, July 13 .- (AP)-W. B. Greeley of Seattle, secretarymanager of the West Coast Lumbermen's association, confronted the vice-chairman of the federal tariff commission last night with the charge that northwestern lumbermen "do not feel that these (reciprocal trade treaties) are acts of a government that takes its forestry seriously." Appearing at the institute of

northwest affairs, Greeley de-clared the treaties "gave away" markets when the northwest industry had 25,000 idle workers. Dr. Henry F. Grady, Washington, D. C., one of the authors of cost.

ada would open negotiations at all she insisted that some of the Soviet Reports tariff barriers existing on her lumber be relaxed. So we had to start there. We tried to be as fair with lumber as with every other in-dustry, and I don't believe it can to sabotage industry."

Grady asserted " if we close our borders to foreign trade, we will have to regiment our domestic economy as is being done by the totalitarian states we dislike. Germany's foreign trade under such a plan has been falling off rapidly and I've talked with many Germans who would like to see an end of the program and a return to normal trading condi-

"The only way we can maintain foreign trade is to continue our present agreement plan." Charles Carey, construction engineer of the Bonneville project, told the institute today lines for transmission of Bonneville power

> MOSCOW, July 13-(AP)-A soviet Russian communique today reported that soviet-Mongolian forces repulsed two Japanese-Manchoukuoan offensives on the outer Mongolia - Manchoukuo frontier from July 5 to 12, with the attacking troops losing "about 2000 killed and more than 3500 wounded."

The communique, distributed by lass, official soviet news agency,

cating transmission lines already in service by saying: "Running were being built at record low the treaties said that "before Can- He answered charges of dupli- bia river through a garden hose." machine guns, 15 armored cars, planned carefully by the Japanese.

the heavy fighting which included engagements. airplane warfare and hand-tohand combat.

(Japanese commanders on the disputed frontier reported that the soviet-Mongols had been driven across the Khalka river and that they considered the main fighting ended. The Japanese reported they were holding most of the plain east of the river, main theatre of th esporadic border fighting which flared May 11.).

The soviet communique said that all Japanese had been cleared out of the disputed area east of the Khalka river and that it was "firmly held" by soviet-Mongolian

While the Japanese consider the Khalka the boundary between Japanese - dominated Manchoukuo and soviet-protected outer Mongolia, the Russians place the border east of the stream.

The soviet report said the so-Bonneville power through old viet-Mongols shot down 61 planes lines is like running the Colum- and captured 254 prisoners, 70 that the border campaign was

said the soviet-Mongols lost only four guns and four tanks, while 293 killed and 653 wounded in losing 11 planes in the July 5-12

From May 28 through July 12, plane losses were said to have een Japanese - Manchoukuoan, 199; soviet-Mongolian, 52,

Soviet commanders were quoted as saying the Japanese infantrymen were "not bad fighters, although they could fight much better." The Japanese 23rd and seventh divisions were considered 'the best."

The communique added, however, that "the fact these divisions were defeated so easily is explained by the elements of demoralization beginning to set in deeply in the Japanese infantry."

It added that Japanese commanders "not infrequently were compelled" to send troops into the at-

tack "in a drunken state." Japanese reports that the soviet-Mongolians were using germ bombs were described as "brazen lies and vile slander." The soviet reports said that official military orders and other documents taken

from Japanese prisoners showed
