**Case of SP Against** Dam Builder

Judge L. G. Lewelling concluded hearings Thursday in the case of Southern Pacific company vs. John Noak and took the case under advisement pending the filing of briefs by both sides. The case involves a claim by the plaintiff that a dam built by Noak on his land caused the waters of Pringle creek to flood the railroad right of way during high water, and a counter claim by defendant that the railway illegally cut away a bank on his property, thus causing the floods. Both parties to the suit have asked an injunction against action specified on the

part of the other. Judge Lewelling yesterday heard testimony in the contested Dr. Russell M. Brougher of New divorce case of Blanche vs. Everett Foulkes in which the plaintiff has pleaded cruel and inhuman treatment. She has asked custody of a minor child, a half interest in personal property and a third interest in real property, \$250 attor-

ney fee, and return of her former name of Blanche Worrell. Case was continued until August 16.
