## Buying Support at Close Halves Some Extreme Stock Setbacks

NEW YORK, Sept. 16.-(AP)-A somewhat weary-looking stock market today stepped out of the week on the declining side, as war-boom traders cashed profits and scampered to neutral terri-

While early losses for leaders ran to as much as 4 or more points in the brief session, buying support came in at the last and halved extreme setbacks in many

"War infants" bore the brunt of further selling, with recently buoyant steels, aircrafts, coppers and specialties in supply. Utilities, on the other hand, managed to emerge with modest gains and rails generally kept reactions to small amounts.

Average Off
The Associated Press average of 60 stocks was off .5 of a point at 52.3, largest drop for this barometer since the upswing began to gain momentum more than two weeks ago. On the week, the composite retained a net advance of 1.2 points. The preceding week's upturn amounted to 4.4

Transfers for the two hours totalled 1,084,374 shares against 1,555,390 last Saturday. Volume for the week was around 17. 295,000 shares compared with 17,539,000 the week before,

The day's European happenings were confusing to Wall street and speculative contingents showed an inclination to lighten commitments as insurance against events for the weekend.

# Santiam Barley Reported Good ards 12. Cheese: Triplets 15 1/2; loaf 16.

DALLAS-Santiam barley, the new winter variety that has been produced by several growers in Polk county during the past season, has given good satisfaction generally according to yields received this year, according to information received through the county agent's office.

ter barley seed for fall sowing should notify Leth toward start and white Baart; ordinary 88; 12 per cent 91; 14 per cent should notify Leth toward start and should not should not should not shad an additionable should not should not should not should not sh should notify Leth immediately so that arrangements can be made for securing all the seed that will be needed for planting this fall. Orders for the seed to date total approximately 15,000 pounds.

This variety does best when pounds per acre should not be made due to the fact that this variety stools profusely. The lighter seedings also make the barley stand up better.

One possible disadvanatge that this variety has, according to those who have grown it, is that it lodges on rich soils in some cases. Thinner plantings have a tendency to make the straw stiffer and heavier consequently making it stand up better. Winter barley is generally considered superior to other grains as a nurse crop for small seeds such as clover, alfalfa, etc.

Federal, its officers said, has loaned \$1,270,000, all to clients in or near Salem, and more than 90 per cent of this sum on homes. It has made 557 loans, of which 183 have been for construction of new houses The association at the same

time has paid \$79,497.14 in divi-

dends on savings at its annual rate of 4 per cent. Each savings account is insured up to \$5000. Directors and officers of the association are Allan G. Carson, C. W. Paulus, P. D. Quisenberry, George H. Riches, T. A. Roberts, Custer E. Ross, Roy H. Simmons, Paul B. Wallace, Keith Powell and Arthur B. Bates.

# Will Demonstrate Mixing of Spray

A meeting has been called for 8:30 a. m. Tuesday morning, September 19, at the George Tate place at Sublimity to demonstrate the procedure for mixing Bordeaux spray and its application to cane fruits for control of the leaf spot and cane disease. The George Tate place is located about 21/2 miles northeast

The meeting has been arranged through the county agent's office by Assistant County Agent Robert Rieder. A 4-4-50 Bordeaux spray ap-

plied as soon as the old canes are removed and before the fall rains set in, will help to check the spread of leaf and cane spot disease. O. T. McWhorter, extension

horticulturist at Oregon State college will be at the meeting to assist with the demonstrations and discussions. Other cane fruit 60-65c, large 75c; Yakima Yellows, med, 60-65c, large 75c; Yakima Yellows, med, 60-70c; Cregon pickle onions, large lots.

Wheat dropped many dealing for the following will also be discussed.

# Packers Raise Canned Fruit Prices; Resumption of Buying for Future **Demand Is Reported Primary Cause**

Prices of canned fruit are being advanced by most local packers, along with other west coast concerns, in a move which is attributed primarily to increased domestic demand

and secondarily to the European war. Pear prices have advanced 5 per cent in the last two

### weeks and over 10 per cent since the first of August, a Saolem canned-goods broker said yesterday. The extremely short crop State Vetch, Pea this year is the main cause of this Crop Can Double sudden rise, he said. Some local canneries have completed the year's pack while others are sudden rise, he said. Some local
