Legion Meeting Set, Mt. Angel

MT. ANGEL—The meetings of the Mt. Angel post and unit of the American Legion and auxiliary, discontinued for a time because of summer activities, will be resumed on the regular first and third Tuesdays of the month, beginning next Tuesday, September 19.

Installation of officers will be held Tuesday night, the meeting to start at 8 o'clock. All members of both organizations are urged to be present.

Mt. Angel College Professor Back From Nine Years With Indians

MT. ANGEL—Rev. Anthony Terhaar has returned to Mt. Angel from an interesting and sometimes dangerous nine years of missionary service among the Indians of Vancouver Island to take up the life of a professor at Mt. Angel college. Father Anthony was the last Benedictine to leave the island missions which had been maintained by the Mt. Angel fathers since 1900 but were given up when the monastery decided to establish a branch house at Ladner, B. C.

In 1929, the year of Father Anthony's ordination, he was appointed assistant principal of the Christie Indian Residential school under Rev. Victor Rassier. The following year he returned to Mt. Angel to teach for a year and then went back as pastor of Hesquiat, B. C., on the west coast of Vancouver island, with additional charge of the Indian missions belonging to Port Alice. From 1932 to 1939 he was pastor at Nootka and Port Alice with missions at Kyquot, Chicklesah, Nuchatlitz, Ceepeece, McBride Bay, Muchahat, Zeballos mining camp, Quatino and logging camps.

It was at Zeballos, a new gold mining town, that he started a gold rush last spring when he discovered a vein at McBride Bay, a location some distance from large scale mining operations. He is the original staker of the "Boopeep" mine.

Father Anthony's biggest adventure on the island was his escape from death on November 25, 1934, when his 40-foot motor cruiser "Drummond" was caught in a 90-mile gale off the coast and smashed on the rocks.

He is a brother of Rev. Sebastian Terhaar, the monastery's architect and chemist. Father Anthony is himself well versed in chemistry, biology, geology and will teach biology and other subjects at Mt. Angel college this year.

Good Will

"The most precious thing anyone . . . individual or institution, anybody or anything . . . can have is the Good Will of others. It is something as fragile as an orchid, and as beautiful . . . as precious as a gold nugget, and as hard to find . . . as powerful as a great turbine, and as hard to build . . . as wonderful as youth, and as hard to keep."

Proof of the good will the Oregon Mutual Fire Insurance Company holds is shown in its enviable record of forty-five years' service and saving to the insuring public.
