Stocks Have **Broad Rally**

Week's Losses Wiped out in Market Upsurge; **Business Active**

NEW YORK, Sept. 30-(A)-The stock market wound up the week today with a broad rally in the "war infant" shares which spread to other sections of the list, more than wiping out the attrition of five preceding days of irregular or declining prices.

The upsurge began with the opening and continued throughout the short session, with leaders at their best, up fractions to around 5 points, at the finish.

Business was active for a Saturday and transfers totaled 843,-340 shares compared with 562,-460 a week ago. The Associated Press average of 60 representative stocks climbed .9 of a point at 53.2. On the week the average gained .4 of a point. Weekly transactions totaled 8,825,290 shares against 9,663,300 in the preceding period.

Reversal of yesterday's downswing was attributed largely to the conviction of many traders France and Great Britain would shun the peace dove which flew from the joint Russo-German cote at Moscow Friday morning.

Over 2 Cents

Disquieting Europe News, High Security Prices Cause Buying

CHICAGO, Sept. 30-(AP)-A rally of more than two cents a bushel in wheat prices today halted the week's slump based partly on Europe's peace talk which had wiped out a good share of the September war boom advance.

Buyers reentered the wheat and other grain pits on the simulus of higher security prices, clearing weather over the farm belt and disquieting news from Europe indicating that peace is not in sight. Wheat shot up more than a

cent at the opening and later extended the gains to as much as 21/2 cents, closing near the highs or 2 1/6 - 2 1/8 higher than yesterday, December 84 1/2-%, May 85-85 %. Other grains followed this advance.

Additional rains were reported in the southwest overnight but skies began to clear and the forecast indicated fair weather could be expected, with light to heavy frosts in prospect. Little moisture is in sight for the coming week. Crop experts said rains apparently were too light in most districts to bring lasting drought relief but may prove sufficient to germinate winter wheat already Pear Inspection
