

Chicago Wheat Prices Tumble

Sudden Burst of Selling Upsets Market; Close Is Down 3 Cents

CHICAGO, Oct. 3.—(AP)—A sudden burst of selling upset the wheat market in the final hour today, tumbling prices as much as 3 cents a bushel to the lowest level in a month.

December wheat sold down to 80 1/4, or 1/4 below last Friday's bottom quotations. It was the first time this contract had been below 81 cents since September 2, the second day of German-Polish hostilities.

The reason for liquidation of such volume could not be determined definitely although pit brokers pointed out that moderate selling encountered little buying support and when this was disclosed the falling market attracted heavy stop loss liquidation.

Some orders were understood to have originated with a leading international grain house in France, which brokers said may have been associated with hedging operations here against purchases of Canadian wheat. Lending support to this explanation was the fact that Winnipeg prices were fairly steady, being off only about 1/4 cent at the close.

Wheat closed 2-3/4 cents lower than yesterday, or 3-3/4 below early highs, with December at 80 1/4-3/4, May 81 1/4-3/4.
