#### DO NOT TREAT VOURSELF WITH "HEARSAY" Neighbors and friends are priceless pa and should be so regarded-but when it comes to treating yourself in case of illness, the advice of a

neighbor or friend is not the safest plan. They mean well, of course, and simple little ailments and accidents about the house can often be treated casually with home remedies from the medicine chest.

#### Better to be Safe Than Sorry

However, when there is anything the motter with you, to experiment with yourself or treat your case with "hearsay," may be very expensive and dangerous.

There are many underlying causes for outward symptoms, discernible only to a Physician, after careful examination and analysis. Disease detected and treated in its first stages is so much easier to cure, and is less expensive to you physically and financially. Don't experiment on yourself!
