Motion Pictures Celebrating 50th Anniversary of Founding

### **Edison** Cinema History Noted

First Patent for Movie **Machine Is Applied** for in 1891

If you had dropped in on Thomas A. Edison 50 years ago at his laboratory in West Orange, N. J., you probably would have found him dividing his time between experiments on the phonograph, his pet project at the hime, and a photographic device with which he hoped to show objects in motion. His chief interest in motion photography was to provide a visual accompaniment for his phonograph. He wanted people to see as well as hear the artists who performed; but hearing them was nore important to him.

With his assistant, William Kennedy Laurie Dickson, Edison had been at work on motion photography since 1887. However as Terry Ramsaye points out in born. "The Life of an American his authoritative history of the Fireman" was among the first. motion picture, "A Million and One Nights," progress was blocked by the lack of a flexible substance in strips long enough for his pur- of Modern Art is "The Great Train

## Darryl F. Zanack's 'Hollywood Cavalcade' Tells the Screen's Greatest Story—Its Own

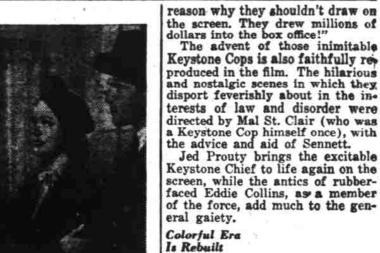

Alice Faye, Don Ameche Star in Romance of **Movie Capital from Bathing Beauties To World Premieres; Filmed** In Technicolor

The romance of Hollywood, from bathing beauties to world premieres, has been staged anew and photographed in Technicolor, and the highly entertaining result is Darryl F. Zanuck's production of "Hollywood Cavalcade," starring Alice Fave and Don Ameche.

Great stars of today and great personalities of yesterday tell this human drama of today-the story of the men and women who conquered the entertainment world-of Mike, who wanted to make movies, and Molly who wanted only to be loved by Mike, but who won greatness on the screen.

Those memorable Mack Sennett bathing beauties, the Keystone Cops, Buster Keaton, Ben Turpin, Chester

FILMED anew, with Al-Mack Sennett mermaid ice Faye as one, the Mack Sennett mermaids are more appealing than ever. Here you see them decorating Santa Monica's Castle Rock, which they made famous. And this time they're phosince 1917 and the ROMANCE of Hollywood from tographed in sparkling technicolor. bathing beauties to world premieres, told in the story of two who conquered the entertainment world, is the theme of Darryl F. Zanuck's

TWO stirring scenes from the film: above, Don and Alice with Alan Curtis; below, with J. Edward Bromberg.

Don Ameche, who plays the di-rector-hero of "Hollywood Cavalcade," will recall to mind, with his riding togs and leather puttees, the great megaphone-wielders of the teens and early 20's, while Stuart Erwin carries on the tradition of the demon cameraman who wore his cap backwards, and Donald

Meek plays a pioneer producer. Ameche directs sumptuous period pictures in the grand manner and out-does D. W. Griffith and Cecil B. DeMille in extravagance with Babylonian revels, scenes crowded with hundreds of dress extras and filmed from the top of the highest parallels ever built in Hollywood-110 feet high. The highest in screen history was the 90-foot parallel which DeMille used for 'The Ten Commandments."

The days when Douglas Fair-banks and Mary Pickford ruled Hollywood's social life will be recalled by many when Alice Faye marries her leading man, Alan Curtis, and they become known as the "Lovers of the World."

#### Cast Typifies Film Pioneers

Curtis, incidentally, was made up to look like a composite of the great screen idols of the silent era and the 20th Century-Fox makeup experts kept stills of many of the great film heroes before them while working on him. J. Edward Bromberg, on the

other hand, plays a composite of all Hollywood producers. Extravagant one moment, penny-pinching the next, he is addicted to huge automobiles and highly-quotable remarks. The historic answer to the imaginative director who wanted to take a troupe on an expensive location trip into the open country, often credited to A. B. Stearn, is revived in the film. "A tree's a tree, a rock's a rock! Shoot it in the park!" Another concomitant of the silent picture era which is re-called in "Hollywood Cavalcade" is the musical accompaniment which was used to stir the emotions of the stars and to evoke their best dramatic efforts.

### THE ROMANCE OF HOLLYWOOD FROM BATHING BEAUTIES TO WORLD PREMIERES!

Just as "Alexander's Ragtime Band" brought back your happiest memories with its tunes.... so will this heartwarming drama of today with its 1001 thrilling yesterdays!

"Hollywood lovely face with a Cavalcade," starring Alice succession of 19 cus-Faye and Don Ameche. tard pies, tossed by tard pies, tossed by that veteran pie-slinger, Buster Keaton (and in-tended for the ever-present top-hatted villain, played by George Givot), are reminiscent of the days when Mabel Normand, Gloria
