"Talk about delusions of grandeur! He asked me to have a date with him!"

She might have a couple of delusions herself—but she does look charming in her brown ensemble. The sheared beaver top may be sipped off the skirt and worn as a separate jacket. And there's a matching muff. Persian lamb bandings accent the curved jacket at left. Black forms the material of the smoothly tailored suit.

### M.J.B. WHY?

"It cost us \$5 to find out..."

1 Jack certainly understands women. The other day, for instance, everything went wrong and I was ready to throw things when Jack came home and took me in his arms. "Darling," he said, "let's put on the soup and fish and step out for dinner tonight." I hugged him.

2 After a marvelous dinner (\$2 a plate—Ouch!) the waiter asks if we'll have coffee with dessert. "Sure," said Jack, "bring the works." And after one sip Jack looks up and says, "Gosh, why don't we have coffee like this at home?" (Nice person!) The waiter smiled. "It's M-J-B, sir, the Richer Roast coffee."

### Shelves Put In Order Now

Now is the time to take inventory of your linen-closet shelves and put them back in hope chest condition. Retire the tattered old sheets and faded tablecloths (you can find many other household uses for them) and replenish your linen stock with others that combine new strength and long-wear qualities with all sorts of clever devices to save time and energy. And don't be too lenient in your weeding-out process. Remember that a too-short or too-worn sheet can cause you many hours of lost sleep.

Emphasis is all on decorative functionalism these days, and if that sounds very formidable, it breaks down into this very simple phrase: household goods which is as attractive as it is useful. Nowadays sheets and pillowcases are not only made for better service and longer wear, but they are loomed with a thought to beauty of texture and attractive "ensembling" qualities. Tablecloths are no longer merely covers for tables, they are gay and "appealing," and frequently strike the main decorative note in the room.

Innovations in bed-linens will strike enthusiasm from every good homemaker. For example, the high-efficiency and gillows have been incorporated in one popular line of heavyweight muslin sheets. The very newest of these improvements saves time and sheets and will be welcomed by every woman who wants to do her morning household chores in the shortest time possible.

Instead of the usual arrangement of a wide hem at the top and a narrow hem at the bottom, there are now two wide hems. This, of course, means that you can make the bed in a jiffy, without twisting and turning the sheet to get the wide-hem to the head. And even more important, reversible-hemmed sheets increase the life-span of bed-linen to a considerable extent. Since the sheet is not placed on the bed with the same end always up, the areas of wear-and-tear are more evenly distributed, and shoulder-shovers and hem-pullers are foiled in their destructive work.

The other time-saving feature is the patented projecting size-index tabs, which are sewn directly into the hem of bed-linens—and each has woven into it the measurements and the type of bed it fits. Thus, when you must make up that single bed in the guest room in a hurry, you quickly pick out the sheet with the little tab marked "63x108—Single B e d", and save yourself pulling out half a dozen wrong-size sheets before you find the one you want.

And finally, to increase the wearing qualities of bed-linen, the sheet manufacturer has woven a double-tape selvyge right into the sheet to prevent fraying and strain along the edge.
