Upturn Ends Two Months Faltering Trade; Soy Beans Rise

CHICAGO, Nov. 30-(A)-Outbreak of Russo-Finnish hostilities today set off a buying wave that swept wheat and soy beans to the highest prices in two years on the board of trade. The upturn ended two months of faltering grain trade that followed the September war boom market.

December wheat, leading the upward movement, advanced 2 1/4 cents to 91%, highest since the end of 1937, while all soy bean contracts soared into new season highs for the third consecutive session, December reaching \$1.08, up 4 % cents and the highest since July, 1937. Other grains also ad-

About a quarter of the 1939 wheat crop has been stored and the bureau of agricultural economics has estimated that 500,-000,000 bushels of corn from the 1937, 1938 and 1939 crops would be stored under government loan during the 1939-40 season.

Bearishness Is Inspired by Russian-Finnish Hostilities

NEW YORK, Nov. 30-(A)-Selling, attributed partly to bearishness inspired by the outbreak of war between Russia and Finland. today pushed the stock market to new low levels.

Losses ran to around 3 points for leaders in the forenoon, but late short coverings and some buying based on the belief the decline had gone too far, substantially reduced declines at the close. Final quotations also included a sprinkling of modest plus

signs. The Associated Press average of 60 stocks was off .5 of a point at 50, or .9 of a point under its mark at this time last year. It was the eighth consecutive session in which the composite has been unchanged or lower. Dealings Fast

Dealings were fastest in the morning when some of the stoploss orders were touched off. It was noticed, though, that these were generally of light proportions, suggesting important commitments were still intact. Sales 780,700 Wednesday.
