10 by 12 feet and is constructed on the scale of one inch to the cubit, reckoning the cubit as 1 foot 9 inches. Careful workmanship has gone into the building of the model so

that it is nearly as exact replica of the tabernacle as can be made from Biblical descriptions. It is the only model of its kind in this to Dr. Fox.

"Importance of the study of the tabernacle is shown by the amount of space that it is given in the Bible," Dr. For says. "The account of the making of the ta-

WASHINGTON-Citizens of Oregon are enthusiastically behind the March of Dimes drive in the "Fight Infantile Paralysis" campaign, Senator Charles L. McNary, republican leader, US senate, (right), tells George E. Allen, commissioner of the District of Columbia. Mr. Allen is chairman of the "March of Dimes" committee, which is a division of the committee for the celebration of the president's birthday, of which Keith Morgan is national chairman. Commissioner Allen will be in charge of the "March of Dimes" birthday card feature. These greeting cards distributed throughout this state, will be filled with dimes and mailed to President Roosevelt at the White House before his fifty-eighth birthday on January 80th. In this manner those who contribute will join with the president in the war against this crippling disease. One-half of the donations received at the White House will be returned to Oregon and the other half will be sent to the committee for the celebration of th president's birthday to be turned over to the National Foundation for Infantile Paralysis. Every dime will be accounted for, under the direction of a nationally known firm of auditors.
