# High Lumber **Output Cited**

Recovery From Curtailed Buying Is Significant Feature of Month

The weekly average of west coast jumber production in De-cember was 118,168,000 board feet, or 60 per cent of the week-ly average for 1926-1929, the industry's years of highest capacity realization. Orders averaged 115,644,000 board feet; shipments, 113,489,000. Weekly averages for November were: Production, 133,492,000 board feet; orders, 102,675,000; shipments, 119,785,000.

For 52 weeks of 1939, cumulative production, 6,426,951,000 board feet; same period, 1938, \$5,182,328,000; 1937, 6,322,654,-

Orders for 52 weeks of 1939 break down as follows: Rail, 2,787,019,000 board feet; domestic cargo, 2,528,802,000; export, 421,671,000; local, 962,091,000. The industry's unfilled order file stood at 452,187,000 board feet at the end of December;

gross stock, at 930,000,000.

Back to Normal The most significant feature of the December market for west coast lumber was a partial recovery from the curtailed buying which followed the buying hysteria of September. December was thus a "return to normalcy," following the up and down extremes in lumber buying during the fall months. The net volume of December orders for west coast lumber was approximately the same as that for March, 1939, which represents a normal rela-

tionship. For west coast lumber, 1939 brought the best market since 1930. Net orders for the year totaled 6:699,000,000 board feet as compared with 5,458,000,000 in 1938 and 5,911,000,000 in 1937. The year's production also topped the records since 1930. with a total cut of 6.427,000,000 feet-substantially more than in 1938 and slightly more than in

The year's exports of west coast lumber were 412,000,000 board Carrets, local doz. feet as compared with 298,000,- Cauliflower, local 000 in 1938. The increase was due to greater trade with South America and heavy purchases by Great Britain in the months preceding the war, while the seas were still open for normal traffic. Since the advent of war, export shipments have again dropped to a very low ebb.

# Fruit Inspection Service Is Busy

11,572 Cars Looked Over at Shipping Points in Year 1939

federal-state shipping point service in Oregon inspected and certified 11,572 cars of fruits, vegetables and nuts during the six months ending January 1, a reduction of 1320 cars from the first six months of the 1938-39 shipping year, figures released by W. L. Close, supervisor of shipping service under the state agricultural department and federal setup, disclosed.

Bulk of the reduction in shipments was due to failure of apples to move, though pear shipments were also slightly under the same period a year ago.

The inspectors checked and certified 19 carloads of filberts up to January 1, compared to 109 cars in the last six months of 1938. The 1939 shipments represent a 45 per cent increase over the same period the previous

Carlots of walnuts inspected were down 20 per cent, with 181 cars on the books up to January 1 and 237 cars in the last six months of 1938.

The December, 1939, carlots inspected, aggregating 1414, were down 449 when compared with November.

### Home From Hospital

UNIONVALE-Mrs. Mary E. Shelburne, 72, who was taken to the McMinnville hospital Tuesday morning with broken right leg was brought to her home Friday and is recovering satisfactorily.

# First Baby in '39-'40!

Mrs. Hennon and two babies

Mrs. Vernon Hennon gave birth to the first baby in Lima, O., in 1939. That was quite an honor. And now, Mrs. Hennon has given birth to the first baby of 1940! The children are Vernon Gary, born this New Year's Day, and Linda Morene, born a year ago.

BOSTON, Jan. 8 .- (AP)-(USDA)-Trade was very quiet en the Boston wool market today. Buyers were making a market today. Buyers were making a few inquiries to check upon supplies, and prices of wool offered, but they were doing very little buying. Quotations on domestic wools were unchanged as compared with last week.

## \$50,000 Increase For Station Asked California Pack.. 24 % Johns - Manville 75 Timk Roll Bear 49 % Callahan Z-L .... 1 % Kennecott ...... 37 % Trans-America .. 6 %

PORTLAND, Ore., Jan. 8.—(AP)—
(USDA)—Hogs: Salable 2200, total \$50,000 increase in three appropriation for the Pacific northwest experiment station, Portland. for research in selective logging was asked today by Representa-tive Smith (D-Wash).

Smith told an agriculture appropriations sub-committee the entire northwest would benefit if the appropriation was boosted to \$89,000.

Additional grants of \$50,000 each for pulp and paper research and veneer and plywood research at the Madison, Wis., forest products laboratory also were asked. He asked the committee to in-

crease forest fire cooperation appropriations to \$2,500,000, an increase of \$300,000 and the maximum allowed by law.

# Wheat Loses Cent; **Selling Continues**

CHICAGO, Jan. 8-(AP)-Wheat losses of almost a cent a bushel today in the fifth consecutive session of declining prices put quotations about 4 cents below the highs recorded last Tuesday and 5 to 7 cents below the season's best futures.

The improved grain belt moisto 8 inches or more spread over \$1.03 %-1.03 and July \$1.00 %-14.

much of the area, accounted for most of the selling although some crop experts expressed doubt that the precipitation will have any material effect in improving winter wheat yields. They regarded it mainly as beneficial in replenishing moisture reserves, protecting young plants against cold and cheeking soil blowing and crop deterioration.

After declines of as much as 1 1/2 cents, wheat developed recovery power that reduced these losses but the close was 1/2- 1/8 ture situation, with snows of 5 lower than Saturday with May
