## Want Charter In Election

### Rewriting Without Vote not Enough, Planning Council Decides

SILVERTON—A petition will be circulated in Silverton asking that the city council have the new charter, as proposed by the city planning council, put on the May election. The petition will be presented at the February meeting of the city council.

Dr. P. A. Loar, president of the planning council, explained at the Tuesday night meeting that he had heard a move had been started to rewrite the charter and not present it for election as advised by the planning council. This, Dr. Loar said, would defeat the purpose of the planning council, as those proposing to rewrite the charter had expressed themselves in favor of retaining a local man for city manager.

Out of the 500 cities in the country, said Dr. Loar, which had voted city manager form of government, only 17 had failed and in each of these cases the manager was a local politician. If, said Dr. Loar Tuesday night, there was a local man who was qualified for the position, he would favor it, but the proposed charter asked for a qualified engineer and a man with one year's experience as city manager or assistant manager.

Should the petition presented at the February meeting of the city council be refused by council members, then members of the planning council said Tuesday night, the measure would be placed on the November ballot by initiative.

A motion was passed asking Dr. Loar to appoint a petition committee.

## "May I Help You With Your Coat?" Is Woman's Line at OCE as Students Change Escort Customs for Weekend

MONMOUTH—The Associated Women Students of Oregon College of Education are sponsoring a "Leap Year Weekend" on the campus which began Wednesday night, and will extend through Sunday night, January 21.

The girl students are planning to carry on all the leap year traditions, making dates with the boys, calling for them to their homes, performing all those little courtesies which mark the perfect escort, such as assistance with coats, opening doors, carrying books, securing desirable tickets, presenting flowers, and so on.

Since the ratio of women students to men in this school stands at 3 to 1—345 women; 147 men—it looks as if the boys will have an elegant time.

The opening leap year event was the basketball game Wednesday night with the Albany Pirates here. Thursday night is open. Women students are being urged to use their imagination in arranging some interesting entertainment before study hours. Friday night the Wolf Knights are sponsoring a dance.

Saturday night is a big dance arranged by the Associated Women as a special leap year festivity. And to make it a full date, women are advised that the men won't object to being taken to a show before the dance starts. It all sounds like a man's paradise for this weekend.
