

Stock Decline Led by Steels

Transfers Small; Press Average Off .1 Point at 49.6

CHICAGO, Jan. 22—(AP)—Backwardness of steels dampened rallying spirits in today's stock market.

While early declines running to a point or so were chipped down at the close, few issues were able to emerge with plus signs.

Dealings were inconsequential throughout, transfers of 437,950 shares being the smallest for any full session since Dec. 4.

The list was no worse than mildly irregular at the start. Inability of the steel group to progress, however, soon led to a slip-up in other departments.

Among losers were US Steel, Bethlehem, Youngstown Sheet, General Motors, Chrysler, Sears Roebuck, Douglas Aircraft, Eastern Air Lines, Westinghouse, J. C. Penney, and Standard Brands.

Loft was a relatively active gainer of a point. Others on top at the finish were Union Carbide, Montgomery Ward, National Biscuit, Consolidated Edison and preferred issues of Standard Gas & Electric.

Woodburn Jersey Herd Tests High

More than 110 tons of milk totaling 6.45 per cent fat were produced by the 86 cow purebred Jersey herd of the estate of Sidney Miller, Woodburn, during a recently completed 365-day test.

The Miller herd's total production was 14,203 pounds of butterfat, 220,102 pounds of milk with 23 of the Jerseys actually milking throughout the test year, the records show.

The record, made under supervision of the dairy department of the Oregon State college, is authenticated in a herd improvement registry certificate issued by the American Jersey Cattle club, national organization of Jersey cattle breeders.

The highest individual producer was the 8-year-old cow, Girlie's Fox A 111 with 674.71 pounds butterfat and 9,405 pounds milk.

SILVERTON—The volunteer firemen were called to the Grouse apartments Saturday afternoon for a fire. No damage was reported to the building.

Selling Weakens Prices in Wheat

CHICAGO, Jan. 22—(AP)—Quiet but persistent selling weakened wheat prices today but losses of as much as a cent a bushel at times attracted enough purchasing to give the market frequent rallies.

Weakness of cotton and securities prices induced some wheat pit selling and the market also was disturbed by continued lagging commercial demand and uncertainty regarding disposal of large quantities of grain under government loans which were expected to be "called" within the next two or three months.

Wheat closed 3/4-1/2 lower than Saturday, May 97.00-98.00, July 97 3/4-98.50.

Farm Fertilizers Will Be Discussed

"Chemical Contents of Lime and Fertilizers" will be discussed by J. D. Patterson, chief chemist from the state department of agriculture at the Clear Lake schoolhouse Thursday at 8 p.m.

The subject will be discussed from the standpoint of the fertilizers that are beneficial as plant foods.

Patterson will also point out the work that is done by the state department for the benefit of farmers who buy fertilizers, feeds and minerals in Oregon.

Farmers that have purchased lime and fertilizers under the "Soil Conservation Program" will be given the chance to ask questions upon the relative chemical contents of fertilizers.

This meeting is one of a series that is sponsored by the Smith-Hughes department of the Salem high school and the Kelzer Farmers Union for the benefit of farmers living near Salem.
