

City Council Hears Reports

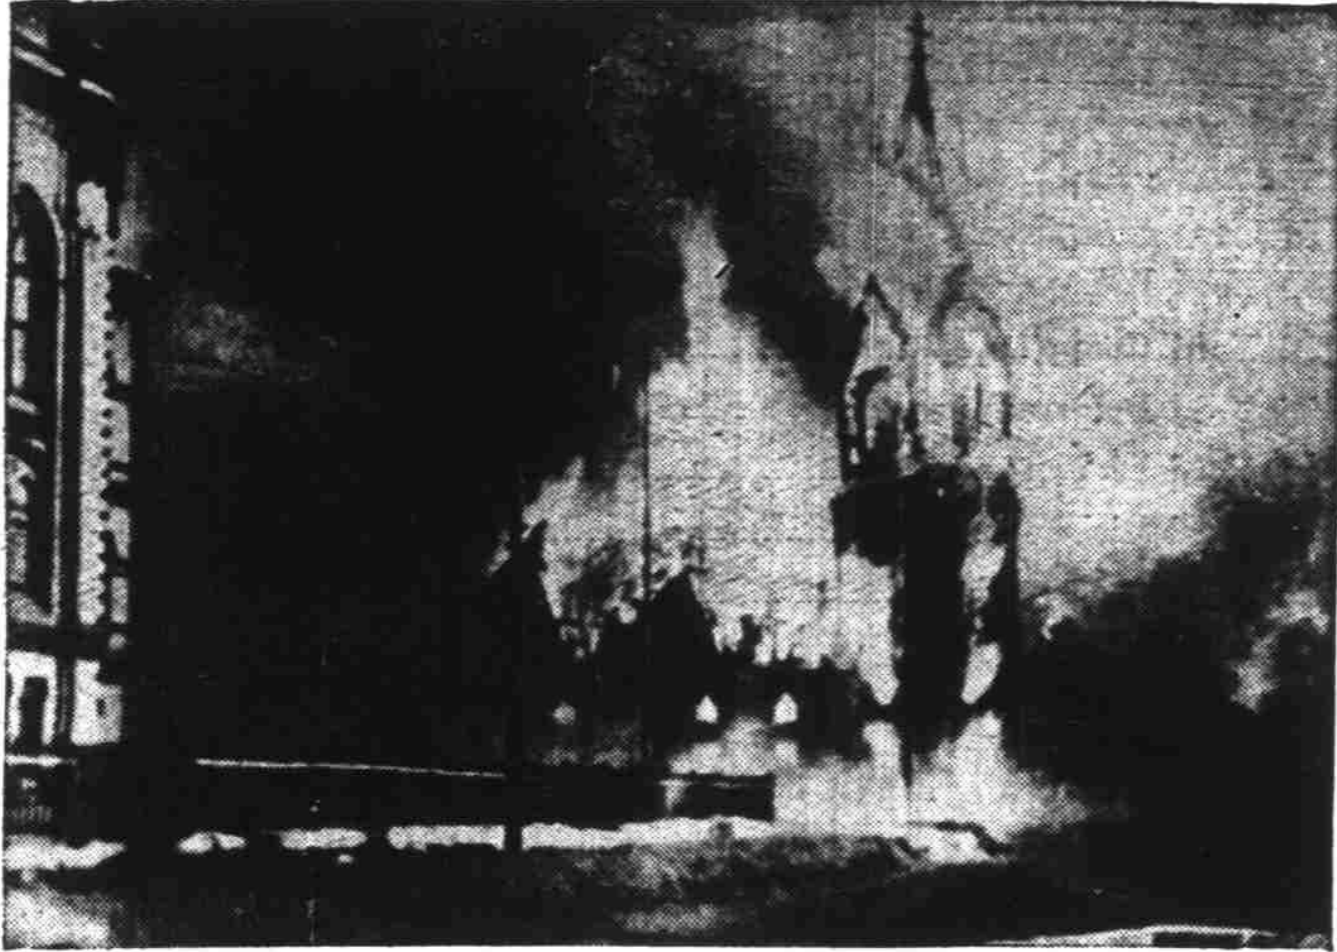

Sewer Connection Law to Be Enforced at Silverton

SILVERTON—The report of the city health officer, Dr. P. A. Loar, and the report of the swimming pool purchasing agent, George W. Hubbs, were the two important features of the Monday night meeting of the city council.

Dr. Loar reported the registration of 192 babies and 71 deaths in Silverton's registration area. He asked for closer cooperation between the health department, the city council and the city water department. Dr. Loar also asked the council what the members' pleasure was in enforcing sewer connections in accordance with a recent ordinance passed. Rex Albright, city attorney, reported that the health officer should sign a warrant for such people's arrest.

George Hubbs, reporting for the swimming pool, said that at least \$500 more was needed to complete the pool. He explained that specifications had made no arrangements for a pump, chlorinator, filter, ladders or bleachers. Even the architect's fees had been left out, Hubbs stated. The architect's fees came to \$900 of which \$700 was paid. Mayor Zetta Schlar left the matter in the hands of the swimming pool committee of the city council with instructions that this committee call a special meeting of the city council at its earliest convenience. The city of Silverton voted \$6000 bond issue
