

### Saunders, Movie Writer, Suicides

FORT MYERS, Fla., March 11 (AP)—John Monk Saunders, writer of Hollywood screen hits, was found hanged today in his waterfront cottage at a quiet island resort where he had come seeking renewed health.

Coroner Ray Lambertson said there was no doubt the 42-year-old former newspaperman and World War aviator killed himself, and ruled no inquest necessary. A native of Hinckley, Minn., Saunders was educated at the University of Washington and at Oxford university in England as a Rhodes scholar.

After the war he was an associate editor of the American magazine. He turned to screen writing in 1925. He married Canadian-born Screen Actress Fay Wray in 1928.

For several years this match was regarded as the Hollywood's happiest while she was rising to stardom and he was gaining fame from screen successes as "Wings" and "Dawn Patrol." In 1931, Saunders wrote a play, "Nikki" in which Miss Wray starred on Broadway. Early in 1938, they separated.

### Opponents Still Block Hatch Bill

(Continued from page 1)

ing opponent of the measure, unloosed a bitter attack upon the republican membership which has voted almost solidly with the advocates of the bill. The republicans, he said, were trying to "Hatch-act the democratic part out of Washington."

Previously, after charges of a filibuster had been made and denied, Senator Barkley (D-Ky) tried to obtain unanimous consent that the Hatch bill be put to a vote tomorrow at 5 p. m. After a full half-hour of parliamentary sparring, Senator Bailey (N-NC) objected, saying he thought the bill "objectionable."

One amendment came to a vote during the day, which also showed the pro-Hatch group in command. This was on an amendment by Senator Brown (D-Mich) to forbid political activity to officers of corporations, receiving salaries of \$25,000 a year or more, which have government contracts or received tariff benefits.

The opponents of the Hatch bill blocked its support in the hope that if it were written into the bill, its presence would alienate the republican membership. But they were beaten 53 to 31.

THE SPIRIT OF 76

by JOHN CLINTON

Ever start to drive to work with a song in your heart, only to have a car cut in and just miss your fender? Let that happen a couple of times more, and you feel as peaceful as Helsinki on the first day of Spring!

That's "Traffic Nerves!" Psychologists who made tests for us found that almost everybody gets them, and that they get almost everybody down!

So we designed a new 76 especially blended for traffic driving to help cut down "Traffic Nerves."

It's high in anti-knock, of course. But it also gives you fast starts, freedom from stalls and smooth performance in snail-slow traffic.

Get a tankful, today. See for yourself how it cuts down "Traffic Nerves." Drive in at the sign of the big orange and blue 76.

UNION OIL COMPANY

"SPEED for bob-sledding thrills! S-L-O-W BURNING for smoking thrills!" says champion "Bucky" Wells

THEY'RE OFF—on the mile-long Mt. Van Hoevenberg run at Lake Placid, N. Y., with "Bucky" Wells driving. Fifteen breath-taking turns to go. Fifteen chances to taste the supreme thrills of speed. But in smoking it's different, very different. "It's slow burning that makes a cigarette tick with me," "Bucky" Wells says. And he means what he says, because he's smoked slow-burning Camels for ten years.

"ONE-TWO-BOB! ONE-TWO-BOB!" And, as the crew bobs, "Bucky" picks up speed... 60-70-80 miles an hour, driving high on the glassy wall of ice as he swings the quarter-ton steel sled around the curve. But in the field of cigarettes, this daring speedster gives the laurels to the quality of slow-burning he finds in Camels. You can tell by their mild, mellow taste that Camels burn cooler, slower—and scientists have confirmed this: Camels burned slowest of all in recent tests. (See panel below.)

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them. That means, on the average, a smoking plus equal to 5 EXTRA SMOKES PER PACK!

FOR THE THRILLS AND EXTRAS IN SMOKING—EXTRA MILDNESS EXTRA COOLNESS EXTRA FLAVOR AND EXTRA SMOKING—I PICK THE SLOW-BURNING CIGARETTE ... CAMEL

IF you want to know how it feels to go 80 miles an hour on a racing bob-sled, "Bucky" Wells of Keene Valley, N. Y. can tell you. But when it comes to cigarettes, "Bucky" Wells is on the slow side... the slow-burning side. If you know your cigarettes, that means Camels! "I know Camels burn slower," "Bucky" says. "There's cool comfort in a slow-burning Camel. Mildness—more flavor. Every puff is a fresh treat to the taste, and—get this—there are many more puffs to enjoy in a Camel. Slow burning means extra smoking. 'I'd walk a mile for a...'" Even if a gust of wind did carry away "Bucky's" last word, not many people would fail to realize it was C-A-M-E-L. Camels are made from costlier tobaccos—drawn from the greatest treasure of mellowed tobaccos ever brought together in one place in the world.
