

Stock Decline Follows Rally

Foreign Picture Cloudy, Inspires Cashing of Early Gains

NEW YORK, May 20.—(AP)—The stock market tried for a sizable rally today but many leaders, including steels, backed away in the final hour and finished just about where they started or a shade under water.

Traders seemed to have shaken off some of their tremors and buying in the forenoon, when gains ranged from 1 to 3 points, was attributed partly to the belief the list was "oversold."

At the same time the foreign picture was still sufficiently cloudy to inspire cashing in by speculative forces on the morning bulge.

While there were several soft spots among aircrafts and elsewhere, the Associated Press average of 60 stocks managed to hold a net gain of 2 of a point at 46.6. Some caution was engendered by the fact that volume lagged appreciably on the morning upswing. Transfers of 1,237,730 shares were the smallest for a full session since May 9. They compared with 3,074,340 shares last Friday.

Douglas and United Aircraft eventually dropped nearly two points each. Modest improvement was retained by Boeing, Glenn Martin, Sperry and Curtiss-Wright. On the upside were General Motors, Sears Roebuck, Woolworth, Western Union, Du Pont, American Smelting, American Telephone, Santa Fe and Great Northern.

Losers included Westinghouse, Montgomery Ward, Dow Chemical, Allied Chemical, Philip Morris and Standard Oil of N.J.

Fish at Suttle Lake

SILVERTON — Mr. and Mrs. J. C. Schlador with Mr. and Mrs. Norris Ames spent the weekend fishing on Suttle lake in the Cascades. The group report pretty good luck on Saturday but poor fishing on Sunday.

Wanted a Medicine Like the Krugon for The Past 50 Years

Mrs. Ludwig is Now Feeling Fine! Foods Digest Properly, Aches and Pains Relieved, Sleeps Good, is Glad to Endorse the Modern Capsule Remedy

Krugon is NOT A LIQUID... but is a full-strength, capsule remedy, which tens of thousands throughout the country acclaim as a "God-send" as it has given such surprising results after all

other medicines tried had failed. Krugon has been made to help suffering people... and no expense has been spared. It contains more REAL MEDICINE per dose than any other medicine we know of. The success we have met with has led us to believe that no similar preparation has been as successful in bringing desired results to such a large proportion of its local users.

For example, read what Mrs. Mary J. Ludwig, a well known highly respected lady who lives at 836 West 3rd Av., Eugene, Oregon, said recently in talking with the Krugon Representative who is at the Fred Meyer Drug Store, 148 N. Liberty Street, Salem: "I know there are many people that are needing a preparation like this Krugon," said Mrs. Ludwig. "I do hope my statement of facts concerning my case will be the means of others learning about Krugon. My health problems began more than fifty years ago with constipation and this has been the dread of my life. I ached all over, especially in my neck, shoulders and down my back. I did not sleep at night but would lay awake by the hour and each morning I simply felt terrible. I was sluggish, peevish and had to force myself to do everything. Even my foods often did not digest properly and that only added to my already miserable condition. I lost my appetite, did not have my usual strength and really my case was alarming. But the medicines I tried were not made for me and it was not until I began Krugon that I found the very medicine I had wanted all these years."

"When I first began Krugon I had no faith in it at all, but it was not long until I was one of its most faithful boosters," continued Mrs. Ludwig. "With the first few doses I was given proper elimination and then I soon showed rapid improvement in many ways. I am feeling better today than I have in years. My bowels are regular, appetite has returned and I enjoy my foods without any distressing effects afterwards. My aches and pains have been relieved, sleep good, have more strength and energy and have found a new joy in living which has been unknown to me for years. Is it any wonder I am glad to speak a good word for a remedy like Krugon."

The Special Krugon Man is daily meeting the local public at the Fred Meyer Drug Store, 148 North Liberty Street, Salem; where he is introducing and explaining the action of this modern capsule remedy. Call to get your trial package of Krugon.

MARY J. LUDWIG

Cattlemen Expect Profitable Year

Eastern Oregon cattlemen will have a profitable season this year if present conditions continue, District Director J. D. Mickle of the state department of agriculture, who returned to his office today after spending a week in eastern Oregon, said today.

Mickle said range conditions are splendid, hay crops are excellent and water conditions are good.

Wheat Market Has Strong Recovery

CHICAGO, May 20.—(AP)—With the past week's collapse of grain prices ended by a special exchange order forbidding trades at lower than Saturday's close, the wheat market today staged a strong recovery as gains ranged up to almost 8 cents. Other cereals also were higher.

Greatly expanded flour business, encouraged by the fixing of minimum prices for wheat, brought large milling orders into the pit. Another move to bolster prices, announcement of the new government wheat loan rate, also attracted attention but some traders said the loan price averaging around 64 cents, or about 8 cent higher than a year ago, was lower than expected.

Wheat's higher trend, which was the only direction it could go, began at the opening bell. Quotations were 3 to 6 cents net higher in first trades and at no time during the session did the market get nearer than 3 cents to the minimums. At best levels during the final hour prices were 7 1/2-7 3/4 cents higher, with May at 86 1/2 and July 81 1/2 compared with minimums of 79 and 78 1/2 respectively. At this level prices were nearly 11 cents above the lows Saturday.

Wheat later reacted but closed 4 1/2-6 1/2 higher than Saturday, May 85 1/2, July 83 1/2-84.

Field Peas Ready For Dusting Today

Austrian field peas will be ready for dusting today, according to word just received by Assistant County Agent Robert Rieder from Dr. Don C. Mote of the entomology department at Oregon State college.

The recommended dust is rotenone .75 with or without oil, applied at the rate of 20-25 pounds per acre with hooded power dusters. The rotenone with the 3 per cent soy bean oil will help check any remaining aphids.

Cherry Growers Advised to Prepare For Spraying Cherry Fruit Flies

Cherry fruit flies are expected to emerge before June 1 and cherry growers are urged to prepare now for spraying by Assistant County Agent Robert E. Rieder.

Spraying materials should be purchased at once, so as to have them available on short notice. Equipment should be overhauled, greased, and put in perfect order before starting to spray. Spray tanks which have been used for lime sulfur spraying should be thoroughly washed out, before using the cherry fly bait spray.

Bait formulæ are given here as follows, for both large and small quantities:

Small Quantity
Lead arsenate 1/2 pound
Molasses 2 quarts
Water 10 gallons

Large Quantity
Lead arsenate 5 pounds
Molasses 5 gallons
Water 100 gallons

The bait spray should be applied to all trees in the orchard, whether cherry or otherwise, as the flies may alight on any foliage in the vicinity, after they emerge from the soil. Even brush and fence rows should receive the spray.

Three sprays are usually necessary to control the fly on late varieties of cherries.

One bait spray before harvest will probably be sufficient to protect Royal Annes, since they are harvested before fly damage is very great.

Three emergence cages have been placed in Marion county orchards, and growers will be notified when to apply the first bait spray. Dates of emergence and spray recommendation will be given through the press, circular letters, and on the county agent's program over station KSLM each Wednesday morning at 7 o'clock.

Wool in Boston

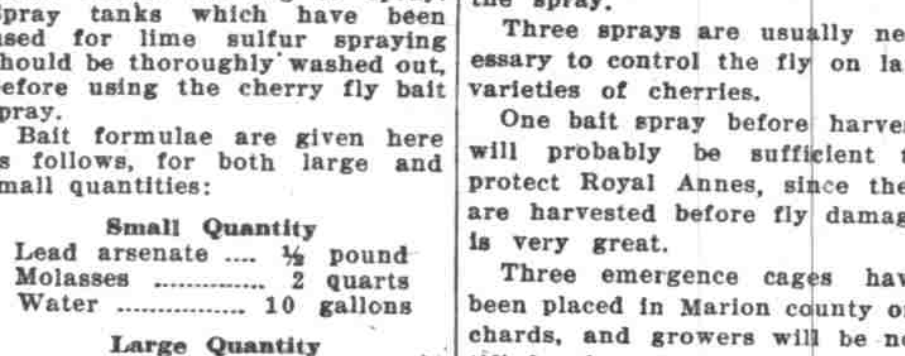

BOSTON, May 20.—(AP)—(USDA)—Manufacturers and topmakers were doing practically nothing on the wool on the Boston market today. Asking prices on wools held in Boston were unchanged compared with the close of last week. The country dealers in fleece wool producing areas, however, were wiring east for bids on their accumulations of three-eighths and quarter blood bright fleeces and some were offering to sell at prices slightly lower than prices asked last week. The unfilled portions of a number of mill orders for three-eighths and quarter blood fleeces are being cancelled because of the existing uncertainty in the market.

Piano Students Present Recital

MILL CITY — Mrs. Robert Schroeder presented her piano pupils in a recital at the Church of Christ Wednesday night. The program follows:

"Salute to the Colors," Duane Downing, Harvey Bethel Virginia Harris, Betty J. Bodeker; "Parade of the Toy Soldiers," Burnett Stone; "Turkey in the Straw," Betty Taylor; "My Shadow Is a Copy Cat," Coral Johnson and Mrs. Schroeder; "Minuet in G," Evelyn Clift; "Sparkling Eyes," Robert Schastick; "Dream Barque," Dorothy Shuey; "On the Ice at Sweet Briar," Juanyta Downing and Carol Siletto; "Camel Train," Isabelle Mason; "Gondoliers," Elaine Clift; "Listen to the Mocking Bird," Florine Shepherd; "Forget-Me-Not," Lois Stevens and Nancy Trask; "Dance of the Honey Bees," Duane Downing; "Dance Ecossaise," Marjorie Schroeder, Edna Swift, Grace Golden and Virginia Harris; "La Cinquantaine," Don Hoey; "By a Road Side Fire," Darrell Schroeder; "Deeds of Valor," Beulah Lewis and Mrs. Schroeder; "Convent Ball," Naomia Chance; "Polonaise," Naomia Chance; "Process March," Edna Swift and Naomia Chance; "The Rosary," Lela Mae Bell "Aragonesa," Edna Swift; "Minuet," (Paderewski), Marjorie Schroeder and Grace Golden; "Meditation," Betty Jean Bodeker; "Il Trovatore," Grace Golden; "Bolero," (Mozart), Louise Graft and Mrs. Schroeder.

Haying Season Started In Brush Creek District

BRUSH CREEK—Haying has begun in the Brush Creek area with considerable alfalfa down. The crimson clover field on the Alfred Jensen farm has created much comment from passersby and many have stopped to inquire what it was. This is the first time that crimson clover has been grown in this neighborhood along the highway.

Practically all sheep in the district have now been sheared with all averaging a good yield.

Spring 4H Fair Closes at Albany

ALBANY—Approximately 500 exhibits were on display at the spring 4H fair which closed a three day session here Saturday night. The fair is conceded to be the largest and best ever held by the Linn county 4H clubbers. It was held in the armory, with O. E. Mikesell, county club agent, in charge.

Exhibits in all departments were arranged according to grades from the first to the fifth year in the work, and consisted of home making, canning, and bachelor sewing by the boys, in all grades, and cooking in three grades. The exhibit of the bachelor sewing clubs attracted a great deal of attention. Judges were Helen Corvill, assistant state leader, who judged the sewing work; Professor Leo Fairbanks of Oregon State college, who judged the art exhibits and posters; and Homer Lyon of the state forestry office, who judged the forestry exhibits and wood work.
