stressed that he would scrap his own aspirations if Mr. Roosevelt became a candidate. Today he issued a statement saying that "the nation's welfare, now dependent upon total preparedness to avert the threat of total war, requires that President Roosevelt continue as the chief executive."

Holdup Shooting Believed Solved

Sykes, Held in Wichita, Confesses Portland Crime, Is Report

PORTLAND, May 30—(AP)—The holdup-shooting of two Portland detectives may be solved by the arrest of a man in Wichita Falls, Tex., Detective Captain J. J. Keegan said today.

Keegan was notified by Wichita Falls officers that Harry Sykes, 64, held on an armed robbery charge, had admitted part in the shooting affray here May 29, 1937. Two gunmen stepped from an automobile the detectives stopped as it sped from the scene of a waterfront drug store holdup. Detective M. A. McMeeken was wounded twice in the elbow and Detective Roy Thompson was shot through both hands.

Blue Devil Nazi Motorcycle Squads Harass Areas Behind French Lines; Cutting Wires Their Principal Job

BERLIN, May 30.—(AP)—Adolf Hitler has put soldiers mounted on motorcycles to new destructive uses behind enemy lines in carrying out his blitzkrieg plans through Belgium and northern France. Dubbed "blue devils" by the French, the motorcyclists were sprung as a surprise on the allies in the Picardy section of France, from Amiens to the channel, north of the Somme.

Authorized quarters tonight at these motorcyclists trained and used only for scouting duty, were estimated at 20,000 in number. They were sent into Picardy during the encirclement operations against the allies with orders to break all possible communication lines linking the allied northern armies and those south of the Somme.

In addition they were to harass the enemy in every other possible way. An authorized spokesman said the "blue devils" raced over the countryside 50 to 60 miles an hour in groups of eight and ten.

Each cycle has a sidecar. The crews are equipped with automatic pistols, carbines and light machine guns. Without reduced speed they strafe enemy marching units and encamped troops alike.

The motorcycles throw off a thick blue exhaust which acts as a smoke screen and gives the riders their nickname. Specialized motorcycle units follow the front squads. These later machines are equipped with wire cutting tools, hand grenades, and other destructive devices for use against power lines, transformers and other key objects.

Among the most ingenious instruments is a rope with a cutting edge. This rope can be thrown over a wire in such a way as to cut it by saw-saw motion, although the users are insulated and safe. These forays are repeated frequently to hinder effective repairs.

"blue devils" employ time bombs for use on bridges and switching-control towers. The squads are composed of picked men who know the terrain to which they were assigned, either as a result of World War experience or special travels as tourists.

Losses among the "blue devils" are few, the spokesman said, because they move too fast and rarely ever appear at a spot which has prepared a defense for them. "The blue devils," he said, "are a blitzkrieg in lilliputian form."

Sealise Indicted On Sixty Counts

NEW YORK, May 30—(AP)—Squat, voluble, 43-year-old George Sealise, until a month ago president of the AFL's building service employees international union and its 70,000 laborers, was indicted Wednesday for larceny, forgery and embezzlement involving \$60,877.27 in union funds.

District Attorney Thomas E. Dewey's office said the sum involved actually was closer to \$200,000 and Murray I. Gurfein, assistant district attorney, declared that at least \$100,000 of that amount had been taken from the union's headquarters in Chicago.

Sealise, who a month ago was indicted for conspiracy and extortion of \$97,150 from employers and members of his own union, was accused in the new indictment of obtaining money from the union by fraud.

The indictment carried 60 counts—25 charges of grand larceny, 6 of common-law larceny, 8 of embezzlement and 11 of forgery.
