Regulations Change — County Clerk U. G. Boyer has received a copy of new regulations governing the issuence of passports to Americans and the policy of the government in issuing visas to aliens desiring to enter the United States. The communication, from R. B. Shipley, chief of the passport division of the state department, states that all aliens must establish a legitimate purpose or a reasonable need for entering this country, and must be able to show that they will depart when their visas expire, They are also required to show conclusive proof of nationality. Canadians and Mexicans are required to have passports for entry into this country, though the free passage of bona fide commuters over the border will be facilitated. Lutz florist. P. 9592, 1276 N. ### 11.9 Per Cent Gain in May Reported by Census Survey Office

Retail Trade in

Independent retail stores in Saem reported a gain in business last month of 11.9 per cent over May, 1939, the census bureau office in Portland reported yesterday. The reports were based on confidential reports made to the census bureau.

Sales of similar stores throughout the state were 8.9 per cent above May last year, the bureau's study showed, and sales of the first five months of 1940 were 8.8 per cent higher than those in the same period a year ago. Showings of business groups within the survey included: Food stores, .2 per cent loss; apparel stores, 7.9 per cent gain; motor vehicle dealers, 22.4 per cent gain; lumber-building-hardware group, 6.4 per cent gain.

### Advice Offered, Care of Stolen, Diseased Turks

Dr. W. H. Lytle warned Monday that thieves who Sunday night stole four young turkeys from his coops here may have

acquired a lot of trouble. Dr. Lytle, who is head of the animal division of the state agricultural department, said he was not so much concerned with the theft as with the fact that the turkeys have a peculiar disease Have Champoeg Picnic that affects the digestive tract. If mixed with a healthy flock

Dr. Lytle said, this disease would cause the death of 95 per cent of the birds. Dr. Lytle took the diseased birds to his home Saturday to

work on them over the weekend. One had a pronounced peg-leg. There is some question that the disease may be transmittable to humans, Dr. Lytle said, and for this reason he is anxious that whoever has the turkeys get in
