Buying Props Stock Market

Defense Program, Politics Factors in Favoring of Utilities

NEW YORK, June 24-(A)-Buying, concentrated principally in utilities, propped the stock market today in the face of adverse war news and still cloudy trends at the opening of the republican national convention.

Dealings were slack from the start, but picked up a bit near the finish as the power group turned relatively active. While many leaders were a shade under water at the close, gains of fractions to more than a point were shown for favorites.

The Associated Press average of 60 stocks was up .4 of a point at 41.6. Transfers of 471,990 shares compared with 333,320 last Friday.

The utility section, which has been improving recently on the belief the big defense program would serve to lift power profits substantially and inspire a friendlier governmental attitude toward this industry, was further heartened, brokers said, by revived hopes veering political winds might shift to the side of electricity manufacturers.

Steels Hold Own Steels generally held their own notwithstanding an mated dip in this week's mill operations, first in nine weeks. Air transports pointed higher as earnings forecast for the aerial carriers were revised upward. Motors were a shade higher, although production of new cars was believed approaching a sizeable let-down.

Prominent stocks on the forward tilt included Consolidated Edison, North American, Electric Power and Light, Commonwealth & Southern preferred, Public Service of NJ, American Power & Light, American Telephone, Westinghouse, Du Pont, Union Carbide, Eastman Kodak, Great Northern, Sears Roebuck, Woolworth, US Steel, Douglas Aircraft, American Airlines, General Motors and United Air Lines.

A shade in arrears were Santa Fe, Anaconda, Kennecott, United Aircraft, American Can and International Harvester.

Early Wheat Loss Regained at Close

CHICAGO, June 24-(AP)-Wheat prices fell 1/4-% cent in the first few minutes of trading today largely because of beneficial rains over the weekend in the spring wheat belt and then spent the rest of the session working back to around Saturday's close. Buying credited to mills in con-

nection with government purchases of white flour for relief distribution helped the rally. Failure of the new wheat movement to expand materially and reports of rust damage in soft and hard winter wheat areas added to the market's strength. At one time during the session prices showed net gains of as much as %-%

Wheat closed 1/4 lower to 1/8 higher compared with Saturday, June 79%-%, September 79%-

UNION HILL-Marjorie Tate,

House Has Apartment Advantages

This small home, one of a series of "western living homes" created by northwest retail iumber dealers for low cost con-struction, offers the features of a modern small city apartment and, it is claimed, at a far less monthly cost for ownership than for average rent. A feature of this little home, the Wallows, is the combination of closets and dressing table in the bedroom. It may be built in its present economical garden-apartment size but with provision for future additions.

1000 at Opening Of Seed Company

Machinery Is Installed; Barley, English Rye to Be Received

ALBANY-Linn and Benton county farmers were guests at the opening of the Charles J.
Lilly Sed company's big new
plant here Saturday, with more
than 1000 being present, J. E.
Bole, who has been piaced in charge of the management of the plant, acted as host.

At noon a luncheon was served by the women of the Lutheran church, and during the afternoon the visitors were taken on a tour of the plant,

The building was originally built for a cannery and later was bought by the Hunt Brothers, who operated it for two or three years, and in recent years it had rented it to the Northwest Poultry and Dairy company who used part of it as a killing and dress-ing plant during the turkey sea-

The Lilly company has taken a long lease on the big building which covers approximately a city block, and have remodeled it. Machinery for cleaning all kinds of seeds has either been or is being installed. One set of elevators leading to the second floor are completed and another set is well under way. From the main floor is also a portable conveyor to be used for elevating products des-tined for storage in the warhouse on the second floor.

Although the plant is not fully completed it is already in operation and farm products will be received as available. Barley and English rye grass, now being harfirst seeds to arrive at the plant.
