Stock Market Session Drifts

Proceedings Second Low in 18 Years; Declines **Predominate Close**

NEW YORK, July 1-(AP)-It was a drifting session for the stock market today as most traders conserved buying ammunition pending more light on foreign and domestic affairs.

The proceedings were the second slowest in 18 years and declines of fractions to more than a point predominated at the close, Steels, motors, aircrafts and specialties accounted for the principal recessions.

Steel never did get out in front, although the week's estimated drop of 12.3 points in mill operations, due to Fourth of July shutdowns, was in line with expectations and the magazine "Steel" found the outlook for the metal makers reasonably bright. Shares of shipbuilding companies recovered in the afternoc" on

announcement of the letting of large contracts for naval vessels. The Associated Press average of 60 stocks was off .4 of a point at 40.9. Transfers at 272,920 shares compared with 1,173,100 last Friday and were the smallest for a full session, with the exception of July 3, 1939, since 1922.

Prominent losers included US Steel, General Motors, Westinghouse, American Smelting, Phelps Dodge, Texas Corp., Consolidated Edison, Du Pont and Eastman Kodak. Modest advances were retained by Electric Boat, NY Shipbuilding, Montgomery Ward, Woolworth, Goodrich and Anaconda.

Clover Harvest Started BRUSH CREEK-Alfred Jensen began the harvest of his crim- Beans, green son clover seed this week. Jensen's clover field attracted a great deal of attention during its blooming

Jensen is doing the harvesting with his small farm combine.

Rally Follows Dip In Wheat Prices

Occupation of British Islands, Lifting of Hedges Factors

CHICAGO, July 1-(P)-After dipping to lows unequaled here in the past ten months, wheat prices today rallied almost two cents, closing %-% higher than

Saturday. Lifting of hedges against flour sold, to the government relief agency, indications that large quantities of new wheat are being stored for loans and reports that two British islands in the English channel had been occupied by Germans were factors in the rally. After selling at 73% and 73%

new lows for the season, July and September contracts closed at 74%-75 and 75%-%, which were the highs for the session.

Increasing flow of new wheat to market helped to depress prices early in the session although only a small percentage apparently was being purchased by the trade and hedged in the market. The principal terminals received 5,118,000 bushels, the most for the season to date, compared with only 698,000 bushels week ago. However, the movement is about two weeks behind a year ago. At five important wheat terminals in Oklahoma, Texas and Kansas 3434 cars arrived compared with 1396 a week ago and 3128 a year ago.

Wool in Boston

BOSTON, July 1.—(AP)—(USDA)—
Scattered sales were being closed today
in the Boston wool market. Interest in
greasy shorn wools was largely for
fleeces. Territory wools were very slow but nominal quotations were unchanged from last week. Most of th demand for Hennies.

A son was born to Mr. and Mrs. Kenneth Jarman at the Deaconess hospital Friday night, June 28, weighing 9½ pounds. This is the fourth child and the second son.

Rain Need for Oats At Silverton Hills

SILVERTON HILLS-A number of fields of spring planted oats will not be harvested unless rain comes within the next few days, local farmers report. The oats are too short to be caught by the binder, and even too low, for the mowing cycle.

Fall planted oats are good. The strawberry crop was cut short by the draught.

"C" onic constipation had re-

ally had a terrible effect on my health in many ways. I seldom felt well, everything I did was an awful effort for me and at times I would become so dizzy I would fall and often faint. My kidneys began acting so frequently at night that it was impossible for me to get the rest and sleep I needed and I had such severe paints in my back and sides. I did not rest well at any time and the foods I ate did not digest properly. Gas and bloating would follow my meals and often I found it difficult to get my breath in my condition. I was continually hunting a medicine that would be satisfactory for me and I found that very thing in this

KruGon remedy." "It did not take Krugon long on my case until I was definitely on the mend," continued Mr. Cubbison. 'From the first I was given relief from faulty elimination and now I can eat and enjoy my foods without those dis-comforting effects afterwards which took all the joy from my meals. I sleep fine without those disturbances too and rise each morning refreshed. I seldom have a pain and feel stronger than I have been in years. And my case is not the only one in our family to be benefited by Kru-Gon for my wife too has found it to her liking and we both join in telling others how wonderfully surp ising we found KruGon to
